

# STICKLEY®

## **Martine Bed**

Creating a subtle sense of enclosure, the solid-cherry Martine Bed's shelter-style fins flow down to join low rails whose ends sweep slightly upward. Bold but softly rounded moldings follow the lines of the base, and the legs are also smoothly radiused. The finished look is clean yet warm and inviting, with a hint of mid-century style.

NOTE: Because solid wood expands and contracts as environmental moisture content changes, we've designed the side rails on this bed with a slight reveal to allow for wood movement. If the joints were perfectly flush, this natural characteristic could cause the rails to bow outward or inward as the seasons change. The reveal helps prevent this.
