Collection: Elixir

Color: Serene Gray Beige Walnut

Number of Shelves: 0

Number of Drawers: 2

Number of Leaves: 0

Style: Modern-Contemporary

Finish: Light Wood

Brand: Hooker Furniture

Product Description: Curvy and elegant, the Elixir Two-Drawer Nightstand combines metal trim and a metal X-stretcher in a champagne silver finish with a serene gray beige finish applied to lightly sand-blasted walnut veneer for textural appeal.

Collection Features: Elixir is a casual contemporary collection that, like its name implies, exudes a feeling of comfort, simplicity and well-being. While Elixir has crisp, clean lines, character and visual interest are also achieved through the use of texture. Textural interest comes from the use of lightly sand-blasted walnut veneer, light texture applied to the metal elements along with a hand-carved texture added to the surface of select pieces such as the oval mirror and the round dining table. The buffet offers a beautiful carved starburst pattern on the doors.

Status: Active

Finish: A serene gray beige finish applied to lightly sand-blasted walnut veneer for an organic and textured look. Champagne silver finish on the metal elements and hardware. Custom-designed knob hardware in a champagne silver finish. Distressing includes wire brushing on wood surfaces and texturing on metal.

Features: Two drawers
Faux shagreen on knobs

Material: Chinese Walnut Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong,

time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
