Cerrificate

Product Name: Solid Wood Double-Layer Single Rod Garment Rack

Origin: China

Quality grade: Qualified

Pre-installation instructions:

1、Please confirm whether all the parts of the product are complete before assembly.
2、Follow the instructions in the manual to assemble the product correctly and safely.
3、Keep all parts out of the reach of children.

Care instructions:

1、Please stop using the product if it is damaged or deformed during use.
2、 It is recommended to check the parts carefully every 3 months. If there is a potential safety hazard, stop using it.
3、Do not attempt to repair or modify the product yourself, as this may affect its lifespan.

Directions for use:

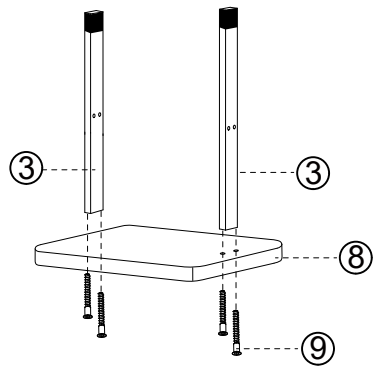

1、Please do not jump on this product or use it as a platform to pick up items. This is especially important for children.
2、To avoid tipping over, deformation, or breakage, use the product on a flat surface.
3、Do not use this product for any purpose other than its intended use.

After-sales service:

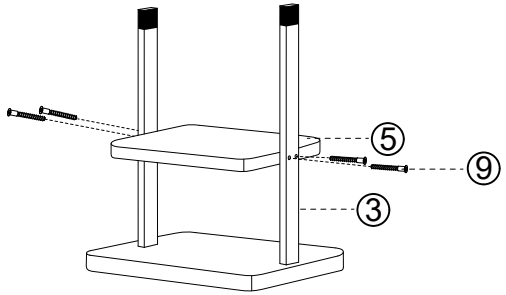

1、 If you have any questions, or if there are quality issues, missing accessories, or difficulties with installation, please consult our customer service team.
2、We are not responsible for any consequences or consequential losses caused by natural disasters, improper repairs, modifications, etc.
3、Please dispose of the product's packaging materials appropriately.

Product Name :Solid Wood Double-Layer Single Rod Garment Rack

Step 1:

(Assemble as shown in figure)
Secure the Lower Side Panel (3) to the Base Plate (8) using the Straight Repair Screw (9).

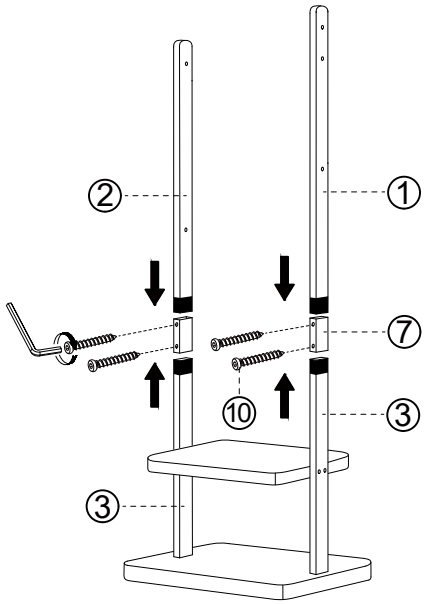

(Assemble as shown in figure)
Secure the Lower Side Panel (3) to the Shelf Board (5) using the Straight Repair Screw (9).

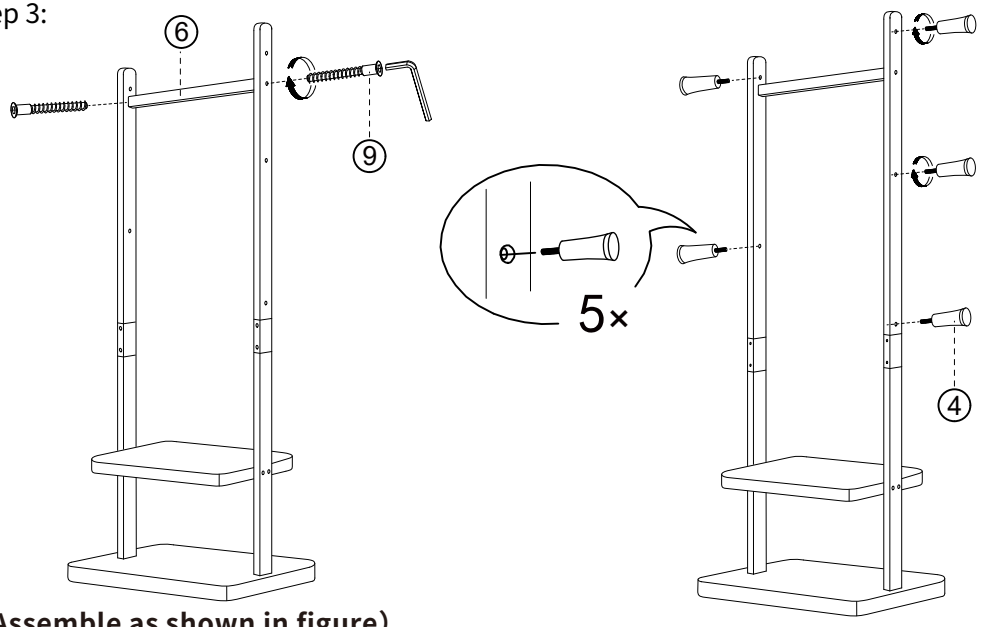

Step 2:

Note: If the Upper/Lower Side Panels (1, 2, 3) fit too tightly with the Metal Sleeve (7), first slide the Metal Sleeve (7) onto the tenons of the Upper/Lower Side Panels separately. Then, firmly grip the Upper Side Panel (1, 2) and press downward with both hands until all tenons are fully inserted into the Metal Sleeve (7).

(Assemble as shown in figure)
Connect the Upper/Lower Side Panels (1, 2, 3) using the Metal Sleeve (7), then fasten the Metal Sleeve Screw (10) into the corresponding holes of the Metal Sleeve (7).

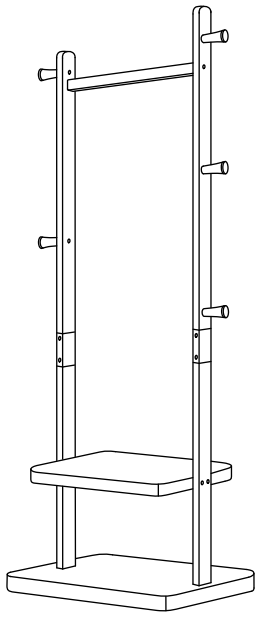

Step 3:

(Assemble as shown in figure)
Secure the Clothing Rod (6) to the Upper Long Side Panel (1) and Upper Short Side Panel (2) using the Straight Repair Screw (9).Screw the Hanging Post (4) onto the Upper Long Side Panel (1) and Upper Short Side Panel (2).

Step 4:

Installation Finalized!
