PRODUCT CARE AND CLEANING GUIDE

All Bright Beginnings products should be cleaned without excess water. Use warm water and a mild cleaning soap, wipe with a wet rag and wipe dry. Where disinfecting is indicated, the widely recommended bleach solution is generally safe for Bright Beginnings products.

Always ensure that the product is dried completely after washing to prevent any water from being absorbed into the woodgrain as it can cause mold or swelling that can damage the furniture.

If products are going to be stored, always ensure that they are safely stored indoors and away from any water sources or areas where leaks could occur.

If you have any further questions regarding the storage, cleaning, or care for your furniture, please reach out to our Customer Care department and we will happily assist you with your inquiries:
