Product Description: Black Walnut Veneers, metal and glass blend together in a mixed media medley to create a look of refined organic elegance in the Classic Credenza. The earthy color palette combines dark wood, cream and gold in the quatrefoil pattern on the front, the hardware and the metal base. Four doors with decorative glass with one adjustable shelf behind each door. Ventilated back panel.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Status: Active

Finish: Dark wood finish with matte gold colored hardware and metal frame

Features: Four doors with decorative glass
One adjustable shelf behind each door
Ventilated back panel
Levelers

Material: Black Walnut Veneer, Metal and Glass

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board,

made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
