

Installation Guide

Multi-functional Storage Cabinet

Bamboo/Wood/Original Life/Small Furniture

Accessories List (Taking the Screen Door as an Example)

Installation Steps:

1. Take the side bracket left and the large shelf panel, and install them using screws **(place the large shelf panel with its back side facing up, align the groove on the large shelf panel with the small groove on the side bracket left).**

2. Take the side bracket right and install it using screws **(also ensure that the grooves are aligned properly).**

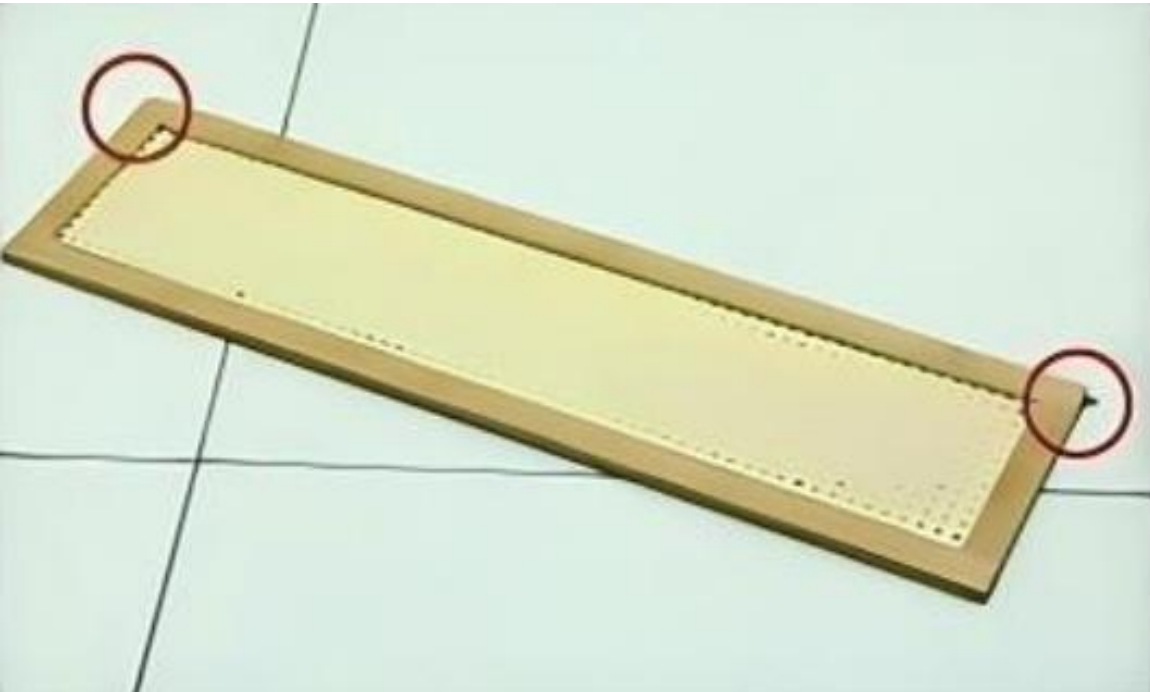

3. Take the partition board and install it using screws.

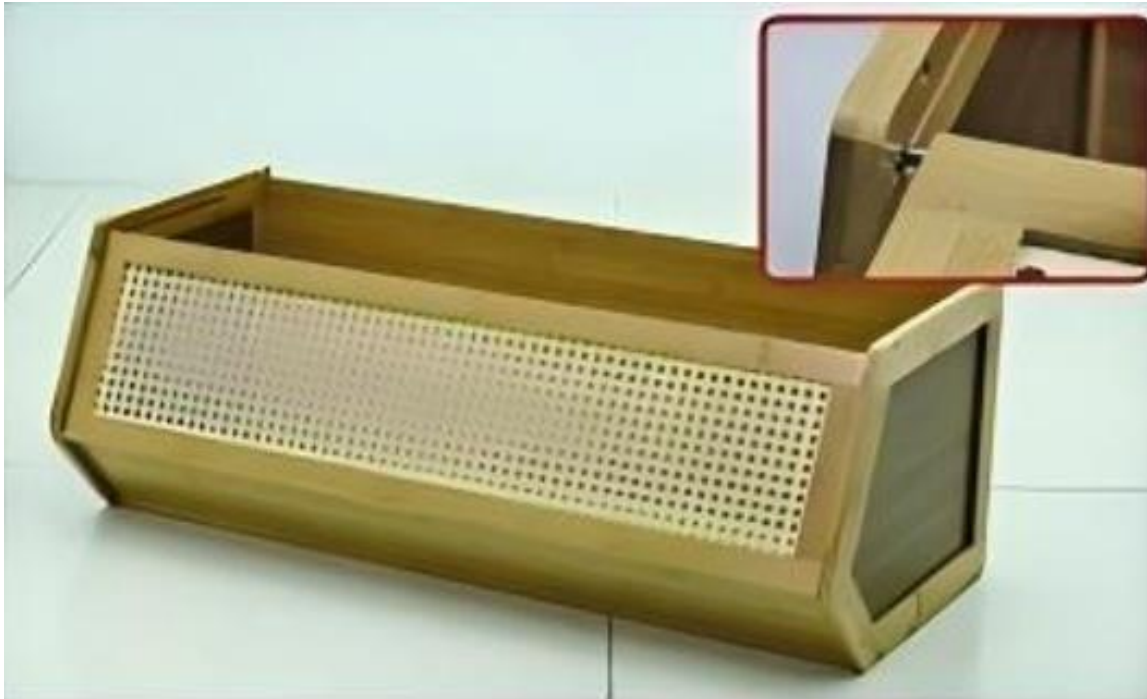

4. Take the metal strip and insert it into the side brackets.

5. Take the back panel and insert it along the grooves.

6. Take the door panel and insert the metal strips into both sides of the door panel.

7. Insert the metal strips on the door panel into the large grooves on the side brackets.

8. Take the large shelf panel with the front side facing up, align and insert the grooves into the back panel, then secure it using screws.

9. If you have purchased multiple layers, simply insert the connecting bolts into the side brackets to connect them.
