PLEASE READ BEFORE ASSEMBLY

Read Before Beginning Assembly

1. Clear the area: Assemble in a spacious area near the product's final location, preferably on a carpet or protected surface (like the product's cardboard packaging) to safeguard both your floor and the product.

2. Recommended assembly team: It is recommended that at least two people assemble this product. Having an extra hand can make the process easier. Estimated assembly time is 30 minutes.

3. Check for all parts : Most parts are labeled or stamped on the raw edge. Ensure all parts are included before starting.

4. Read each step carefully: Follow the assembly steps in the correct order. Skipping steps or changing the sequence can lead to difficulties.

Caution

1. Choking hazard - small parts: This product contains small parts. Keep out of reach of children.

2. Do not use power tools: Power tools can strip or damage parts and void the warranty.

3. Important: Do not full tighten any screws until the entire assembly is completed. This allows for proper alignment and adjustments during the assembly process.Tightening them all at the end will result in a more stable structure.
