Safe and Convenient:

When the DAINTY Legacy Kettle is in operation, the power button will indicate a blue LED light, making it easy to monitor when the kettle has finished boiling. Inclusively designed, the appliance features a 360-degree swivel base allowing easy, comfortable handling for both left and right hand users. The anti-slip feet, ensure the product stays safe and sturdy during use. Take advantage of the easy view water gauge to accurately measure the exact level of water you need, to save your valuable time and energy.
