

## Introduction

Do not discard any contents until after assembly is complete to avoid accidentally discarding small parts or hardware.

### Package Includes

NO	Description		QTY
A	Pole		1
B	Base		1
C	Tooth washer		1
D	Nut		1
E	Shade		1
F	Lock ring		1
G	Wrench		1

## Product Size

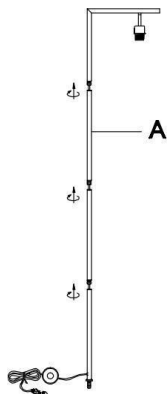

## Specification

Product Name	Floor Lamp
Max Wattage	60W
Bulb Base	E26
Product Size	L 18.3"xW14.5"xH62.2"
Product Material	Metal and Fabric
Base Material	Marble
Switch Type	Foot Switch on/off

## Assembly Instructions

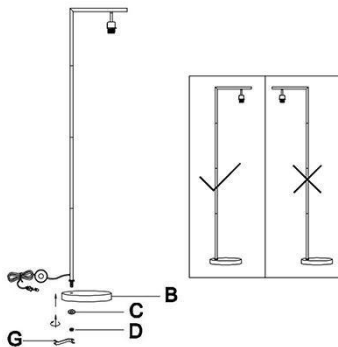

1. Tighten the tube (A) from bottom to top by turning it. You may need to gently pull the extra wires over the bar to fit both parts.

You may need to pull any excess cord gently through the poles so that these two parts fit.

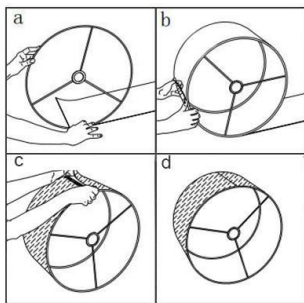

2. Insert tube (A) into base (B) washer (C) and then tighten them with nut (D) using wrench (G).

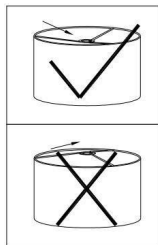

Note: Adjust the base direction before locking it because the power cord comes out of the back.

3.Align the cloth cover with both ends of the shade frame until the iron frame is completely wrapped. Then, connect the ends of the cloth cover.

Note that is right for the hoop to sunken down in the center

4.Place shade (E) onto the socket holder, and turn the socket ring (F) until tight to secure the shade.

5.Install the E26 base medium bulb on the lamp cap by screwing it in place (Bulbs sold separately)
