

Installation Instructions

Parts List

				
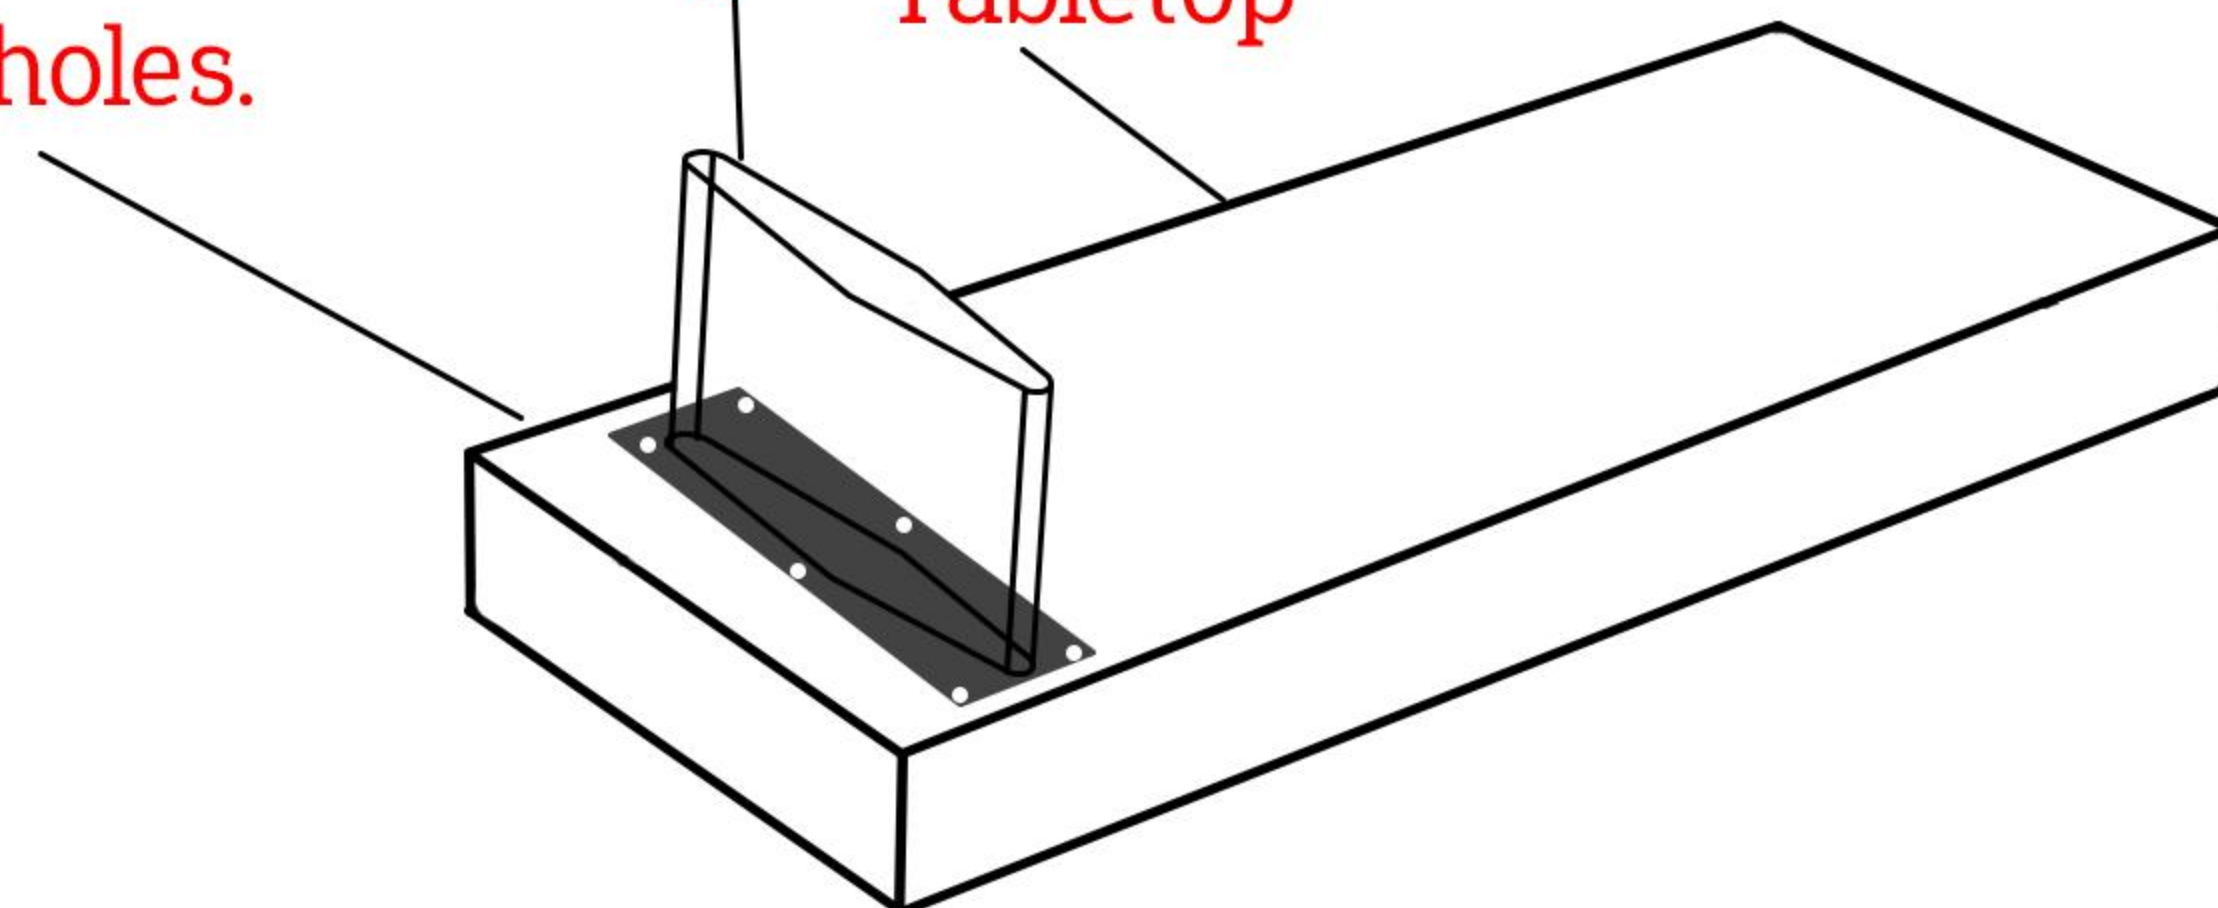

Cabinet	Table Leg	Tabletop	Connecting Frame	Hardware Pack

Step 1: Install the Table Legs

1. Align table leg holes with the holes on the back of the tabletop and secure with screws.

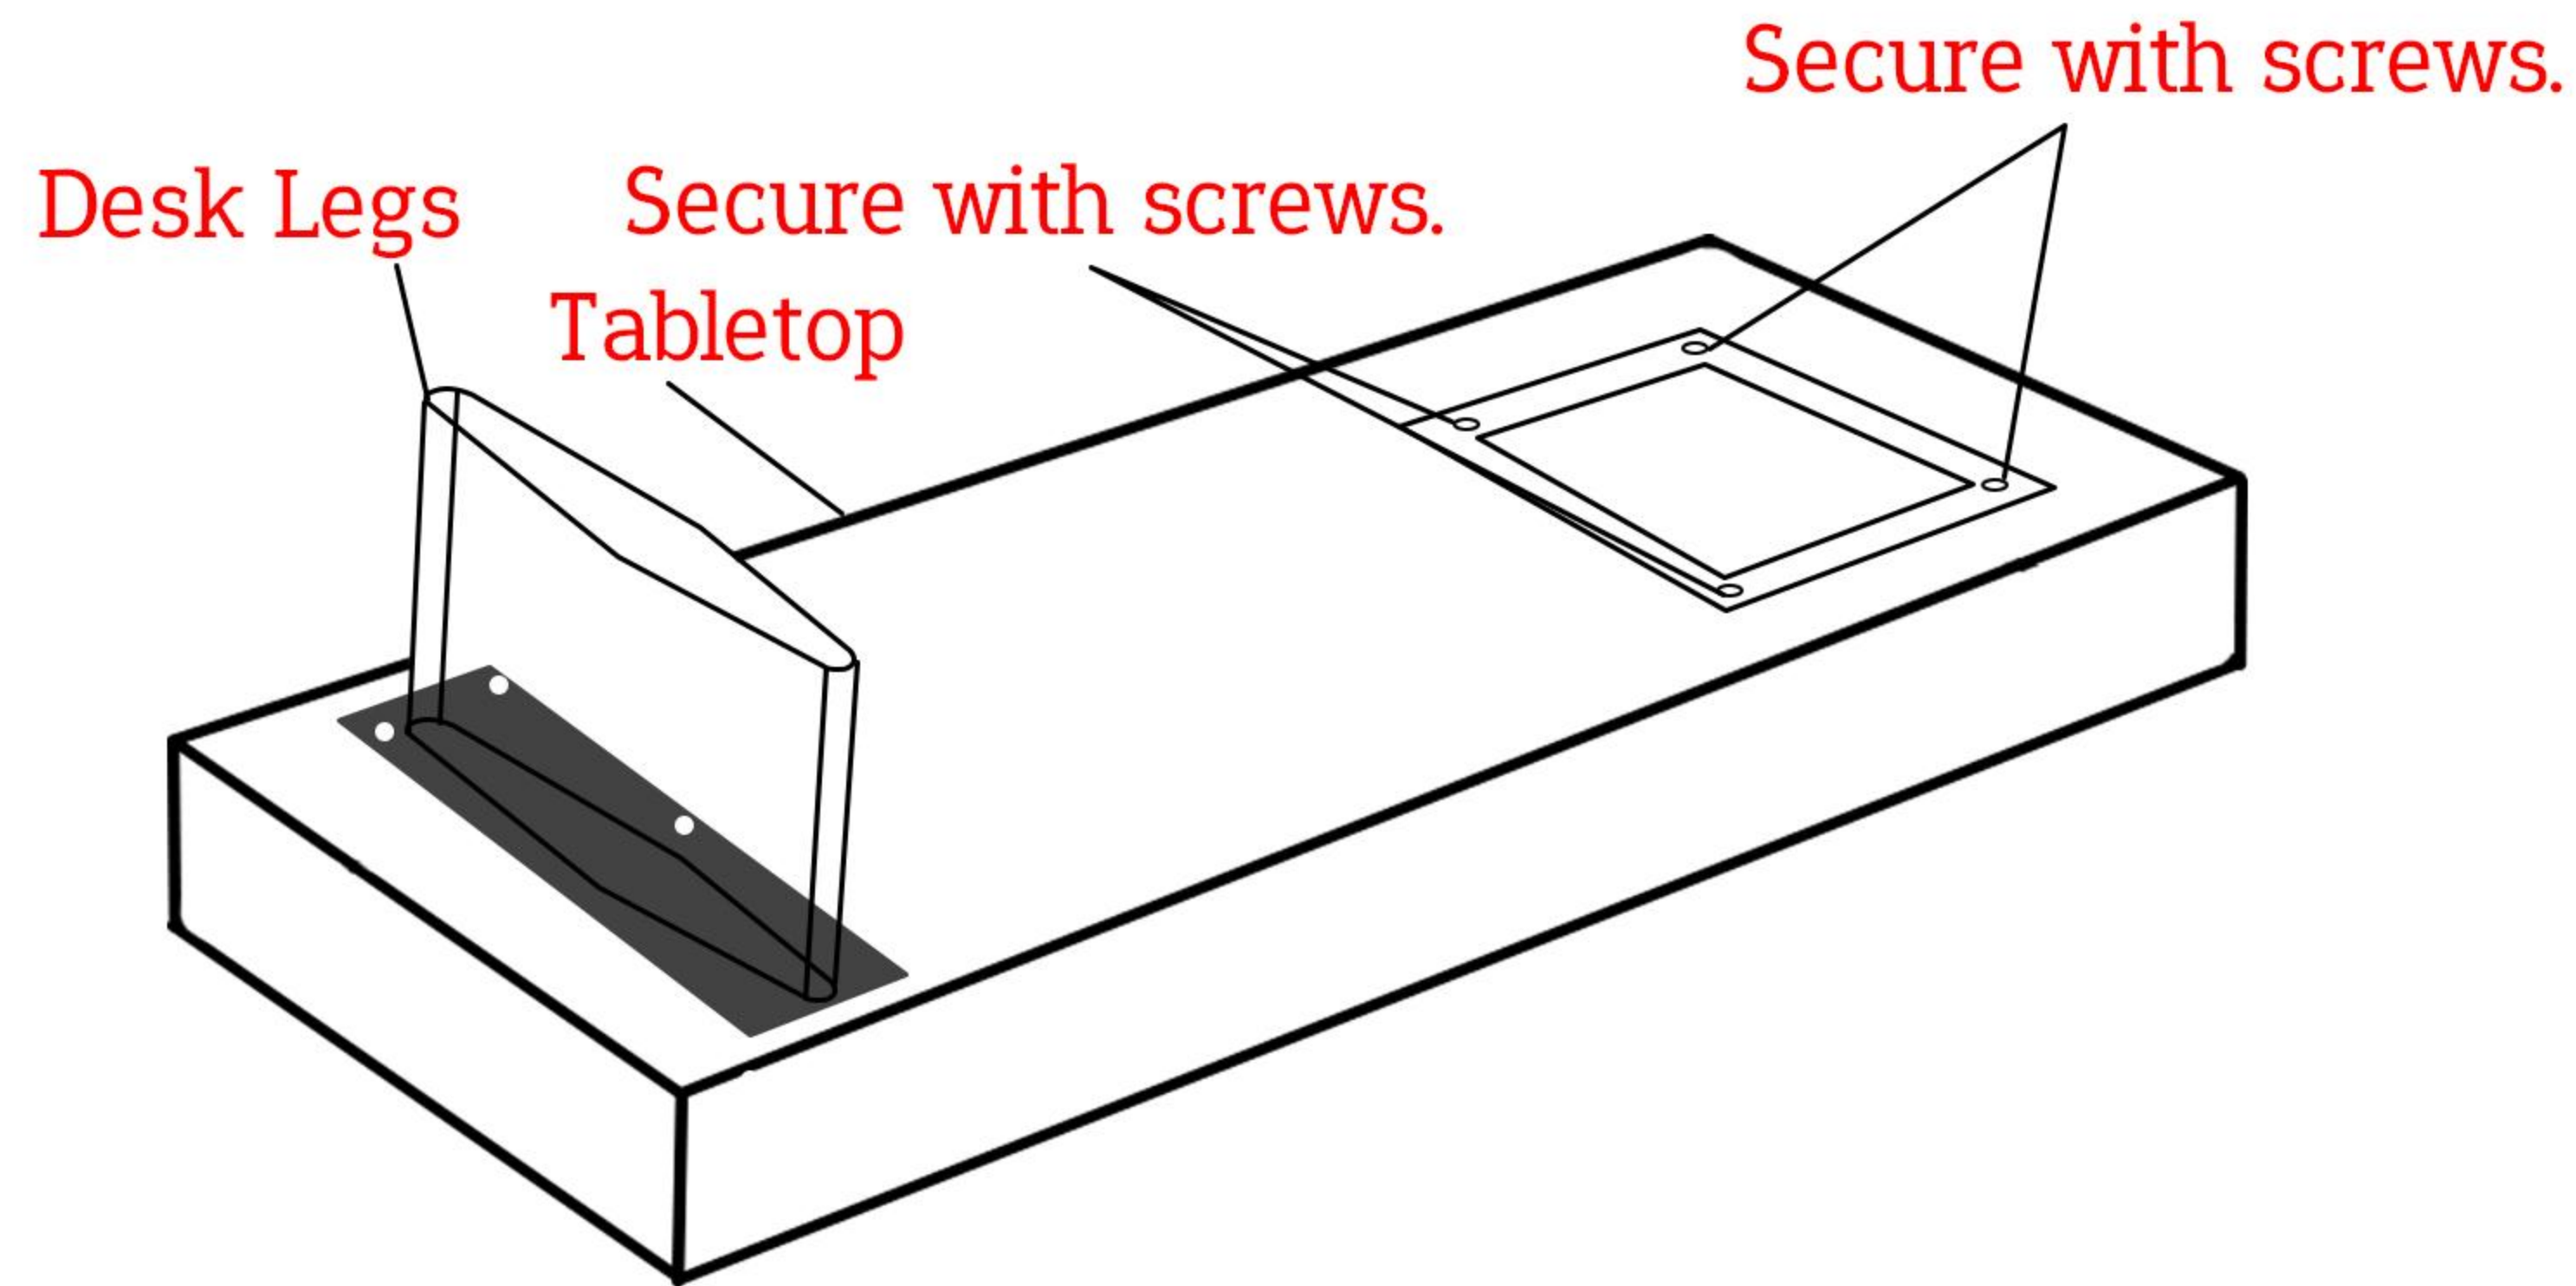

Secure with screws at the white mounting holes.

Desk Legs Tabletop

Step 2: Install the Cabinet

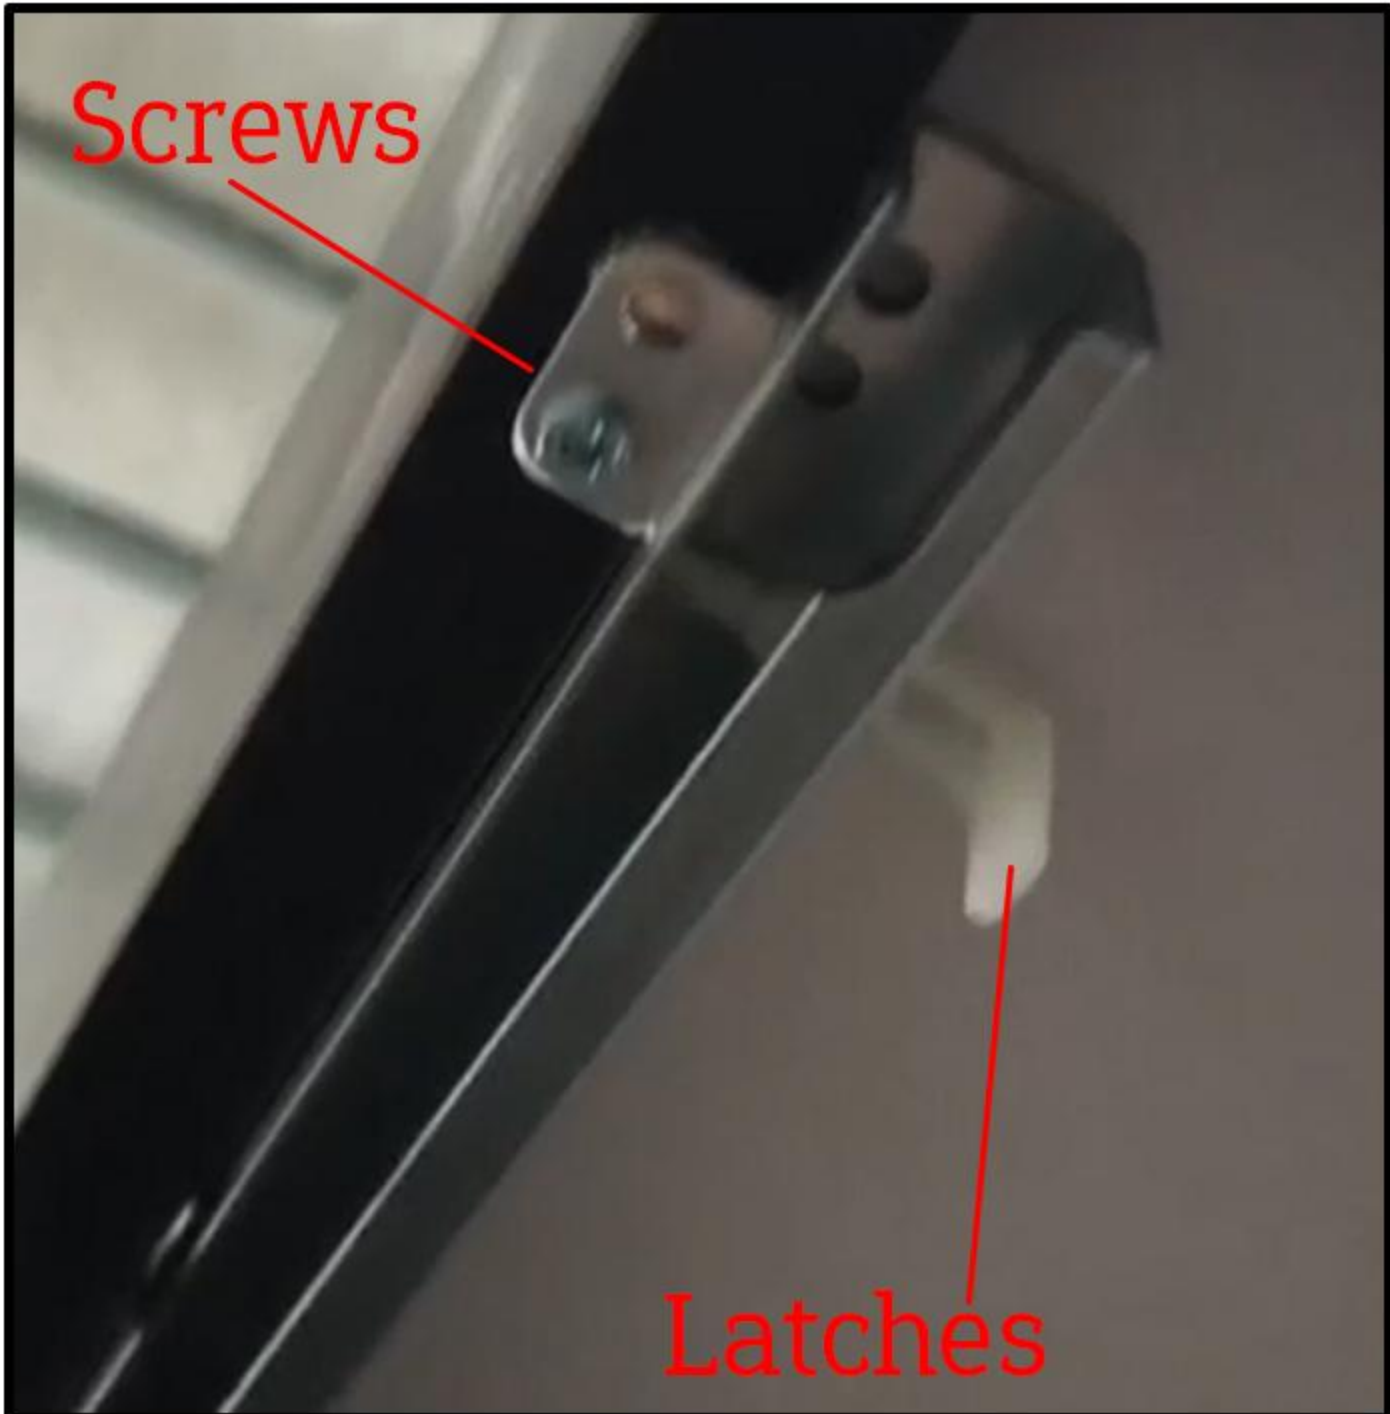

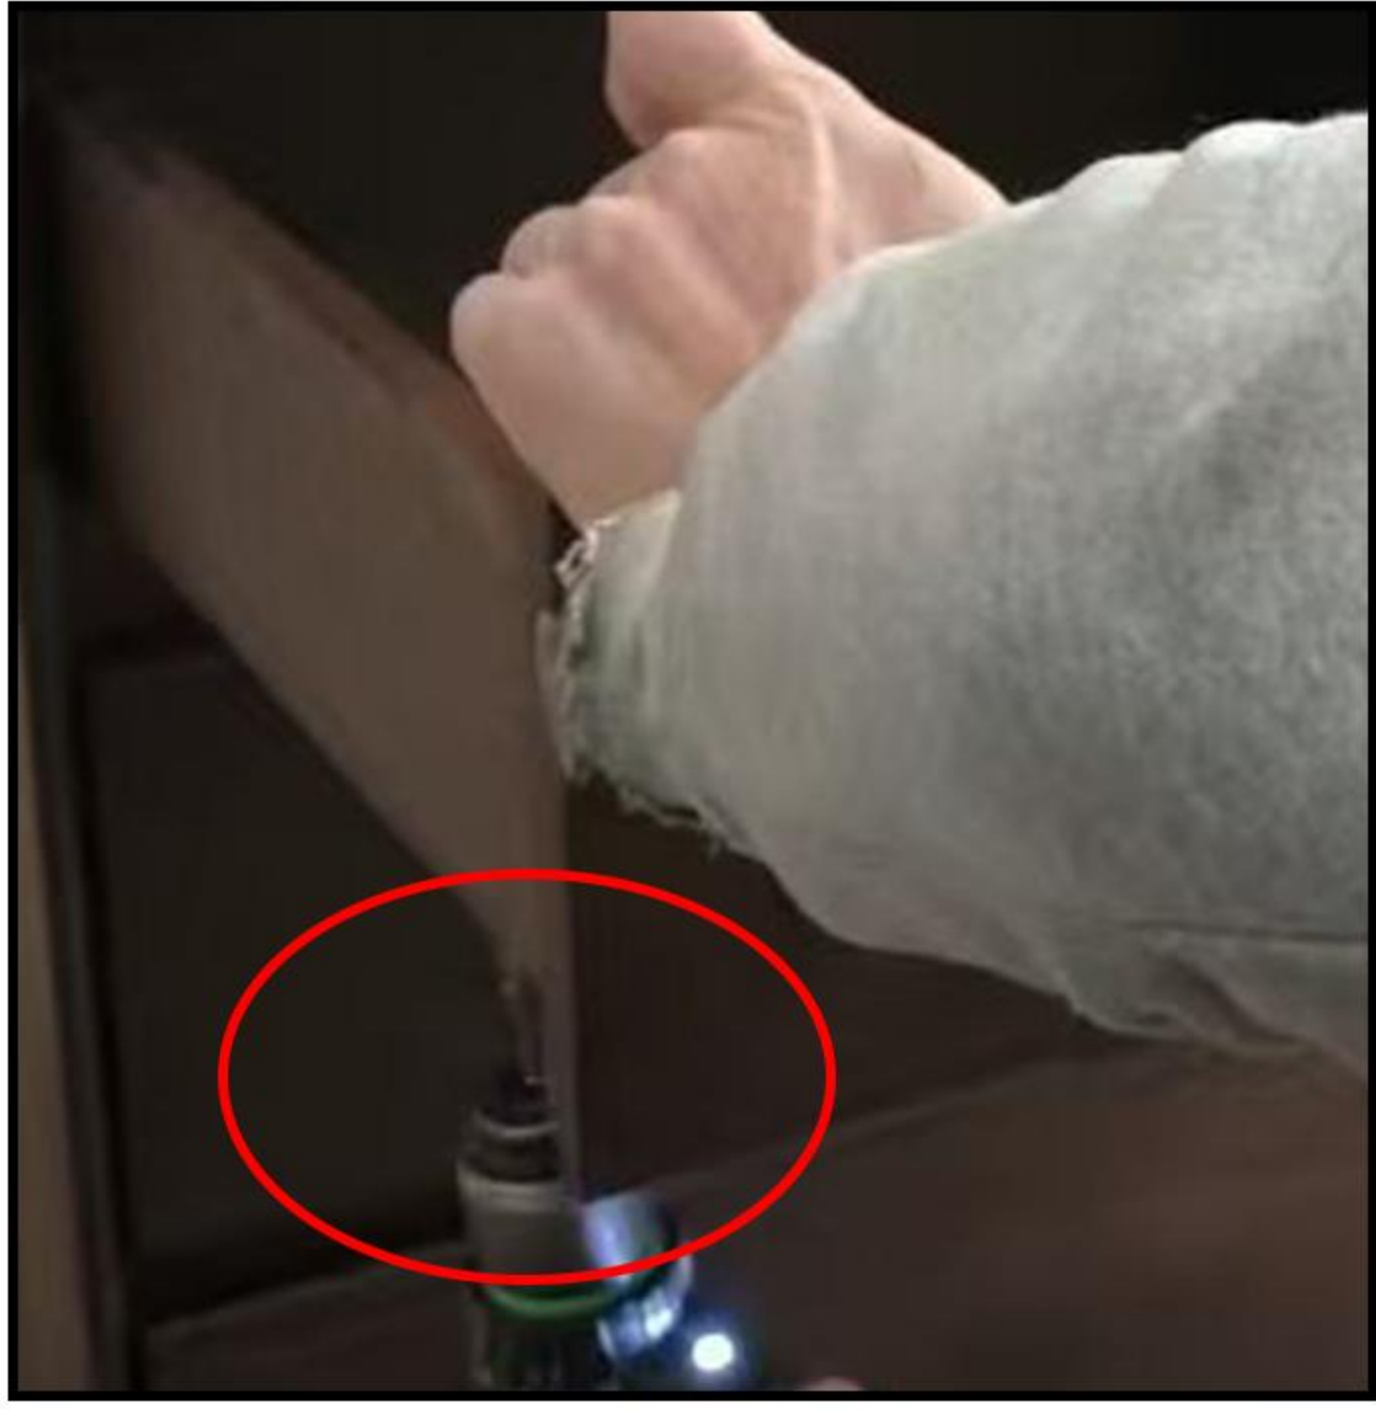

1. Align the connecting frame with the back holes of the tabletop and secure with screws

2. Place the tabletop on top of the cabinet with holes aligned, secure with screws, then reinstall the drawer to complete the assembly.

3.Pull out the first drawer. Use tools to unscrew the screws securing the slide rails to the drawer. Release the latches on the slide rails that lock the drawer, then the drawer can be removed.

4.Align the holes of the cabinet with the four holes on the connecting frame, secure them with screws, then reinstall the drawer. The entire table is now fully assembled.

The power outlet on the tabletop is pre-installed; simply plug in to use.
