STEP1

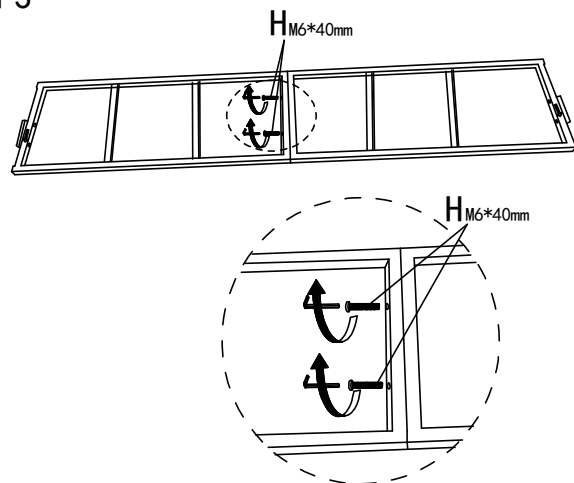

The diagram illustrates the first step of assembly, which involves attaching the front panel (G) to the back panel (F). The front panel (G) is shown with four holes (H) and the back panel (F) is shown with four corresponding holes (H). The screws (H) are used to secure the front panel to the back panel. A circular inset provides a detailed view of the screw (H) being inserted into the hole (H) of the front panel (G) and the back panel (F). The inset also shows the screw (H) being tightened with a screwdriver. The word "BACK" is labeled on the back panel (F).

The other footstool is mounted in the same way.

- Tips:
1. Please do not 100% tighten all the bolts until the sofa is fully assembled, just 50% is OK, make it has space to adjust the chair.
 2. Knead your cushion like giving your cushion a massage while allowing the air to flow through the foam.
 3. Repeatedly tap the sides and front and back to make it rebound better and fluffy.
