

# VIENNE

## 3 Drawer Chest of Drawers

### Assembly Guide

**EasyBuild Design**, powered by ovvo. Less assembling, more living.

**IMPORTANT:** please read these instructions fully before starting assembly

**SAFETY AND  
CARE ADVICE**

**NO POWER TOOLS**

- Check you have all the components and tools listed
- Remove all fittings from their bags and separate into groups
- We do not recommend use of power tools - this could damage the unit. Only use hand screwdrivers and Allen keys
- Keep children and animals away from the work area, small parts could cause choking if swallowed
- Make sure you have enough space to lay out the parts before starting
- Assemble the item as close to its final position (same room) as possible
- Do not over tighten the nuts to avoid damage to the threads
- Only clean using a damp cloth and mild detergent. Do not use bleach or abrasive cleaners
- Do not allow children to climb or play on this product. From time to time, check there are no loose screws in this unit
- This product should not be discarded with household waste. Take to your local authority waste disposal centre
- Unless otherwise stated, this product is designed for domestic use and is not certified for commercial or contract settings

## IMPORTANT INFORMATION

60 Minute  
Build

Two Person  
Build

Max Weight  
Capacity  
30kg

**Note:** Assembly estimates are approximate and can differ based on the specific environment and user experience.

## WHAT'S IN THE BOX

**Note:** the quantities are the correct amount to complete the assembly. In some cases more fixings may be supplied than are required.

| E     | Left Slide           |    | 310mm      | 3        |
| F     | Right Slide          |    | 310mm      | 3        |
| G     | Screw                |   | ø5x15mm    | 18       |
| H     | Felt Pad             |  | ø25x5mm    | 4        |
| J     | L-Bracket            |  | 80x30x15mm | 1        |
| K     | Screw                |  | ø4x14mm    | 2        |
| L     | Wedge                |  | 14x13x10mm | 4        |
| M     | Screw                |  | ø3x19mm    | 6        |

### Note:

- Use a clear, flat surface to avoid bumps or scratches before assembling.
- Insert all fixings loosely at first to allow for alignment; only tighten them once everything is properly positioned, as some adjustment may be required.
- Avoid over-tightening, as this may damage the parts.
- Seek assistance when moving large or heavy parts

## Fitting Assembly Instructions

### Assembly

Push connector into housing to join.

Make sure there is no gap between the panels.

### Disassembly

## STEP 1

Attach Drawer left side [8] and Drawer right side [9] to Drawer front [7] as shown.

x3

## STEP 2

Slide Drawer base [11] into the grooves on drawer side and drawer front panel. Ensure drawer base panel is fully slotted into the grooves.

## STEP 3

Attach Drawer back [10] to Drawer side as shown. Ensure Drawer base [11] is fully slotted into the grooves.

## STEP 4

Attach 4 x Legs [6] to Bottom panel [2] using 8 x bolts [A], 8 x washers [B] and 8 x spring washers [C] with allen key [D] as shown.

|                                                                                   |      |                                                                                   |      |
|-----------------------------------------------------------------------------------|------|-----------------------------------------------------------------------------------|------|
|  |      |  |      |
| A                                                                                 | 8PCS | B                                                                                 | 8PCS |
|  |      |  |      |
| C                                                                                 | 8PCS | D                                                                                 | 1PC  |

## STEP 5

Attach 4 x felt pad [H] to 4 x Legs [6] as shown.

## STEP 6

Attach 3 x left slides [E] onto Left side panel [3] with 9 x screws [G] as shown, using a Phillips head screwdriver.

Attach 3 x Right slides [F] onto Right side panel [4] with 9 x screws [G] as shown, using a Phillips head screwdriver.

|                                                                                   |      |                                                                                   |      |                                                                                    |       |
|-----------------------------------------------------------------------------------|------|-----------------------------------------------------------------------------------|------|------------------------------------------------------------------------------------|-------|
|  |      |  |      |  |       |
| E                                                                                 | 3PCS | F                                                                                 | 3PCS | G                                                                                  | 18PCS |

## STEP 7

Attach 1 x L-bracket [J] to Top panel [1] with 2 x screws [K] using a Phillips head screwdriver.

|                                                                                   |                                                                                   |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |
| J                                                                                 | 1PC                                                                               |
| K                                                                                 | 2PCS                                                                              |

## STEP 8

Attach Left side panel [3] and Right side panel [4] to bottom panel [2] as shown.

## STEP 9

Slot in the back panel [5] into the grooves on side panels and bottom panel as shown. Ensure back panel is fully slotted into the grooves.

## STEP 10

Attach top panel [1] to side panels [3] & [4] as shown.

## STEP 11

If necessary, gently adjust the Top panel [1] sideways in either direction until XX and YY are equal. Holding it in place, fix 4 x wedges [L] to assembled unit with 4 x screws [M] as shown, using a Phillips head screwdriver. Screw 2 x screws [M] into Back panel [5] as shown, using a Phillips head screwdriver.

|                                                                                   |      |                                                                                   |      |
|-----------------------------------------------------------------------------------|------|-----------------------------------------------------------------------------------|------|
|  |      |  |      |
| L                                                                                 | 4PCS | M                                                                                 | 6PCS |

## STEP 12 - Anti-tip Restraint

### WARNING

To reduce the risk of serious injury or death from tip-over, this unit must be securely anchored to a suitable wall before use.

- Never allow children to climb, stand or hang on this furniture.
- Always secure the unit to a suitable wall using appropriate fixings for your wall type.
- Before drilling, check for hidden electrical cables, water pipes and other concealed services.
- If you are unsure how to install the anti-tip restraint or select suitable fixings, seek advice from a qualified installer or your local hardware store.

### Installation

1. With assistance, move the cabinet into its final position.
2. Using the attached L-bracket [J] as a guide, mark the fixing positions on the wall.
3. Move the cabinet away from the wall and prepare the wall for fixing as required.
4. Reposition the cabinet and securely fasten the L-bracket [J] to the wall using fixings suitable for your wall type.
5. Check that the cabinet is level, stable and securely anchored before use.

### Important Handling Note

Always lift the cabinet from the base. Do not lift or carry the cabinet by the top panel, as this may cause damage or separation.

## STEP 13

Insert drawers into cabinet carefully as shown.

## STEP 14

If needed, adjust the drawer level as shown.

## STEP 15

**NOTE:** To open the drawer, push the center of the drawer front inwards as shown.

# Looking Good!

Now you've assembled your furniture, find out how to care for your item and keep it looking brand new.

## Product Care Guide

Product Care Handbook A Guide to Protecting Your Product

### Caring for PUX LEATHER

To preserve and maintain the appearance of your faux leather, apply a "little and often" approach to cleaning.

Stain marks can accumulate through regular use. We recommend using a soft, clean cloth with water and a small amount of gentle washing up liquid to remove any marks.

Before using the cloth, be sure to avoid soaking the surface. Follow up by thoroughly drying the surface with a dry cloth.

Always use a soft, circular motion when cleaning your product. Aggressive scrubbing can cause surface damage.

Avoid the use of harsh detergents such as bleach as these can cause cracking or discolouring.

To preserve the appearance of the velvet, gently vacuum the product with an upholstery attachment once a week.

Alternatively, carefully use a soft-bristled fabric or clothes brush to gently smooth the fabric and remove surface dust. Take care to only brush in the direction of the nap of the fabric.

Velvet can be prone to marking, so be sure to avoid placing anything heavy or hard-edged onto your product for prolonged periods of time. Should

### caring for VELVET

your velvet product start to show pressure marks, these can easily be removed through lightly steaming or brushing the affected area.

Take extra care to prevent your velvet product from coming into contact with any liquids. In the event of spillages, gently blot the liquid away with a soft, clean cloth. Do not rub the affected area or you risk damaging the appearance of the velvet.
