Care instruction for fabric furniture.

In order to maintain the original appearance of your fabric furniture, please follow below simple care procedures:

- Avoid exposing furniture directly to sunlight or heating or heating conditioning outlets. Sunlight and/or exposure to heating and air conditioning outlets will fade/damage fabric.
- Do not place your upholstered furniture too close to windows, radiators, or vents, and be sure to use windows, radiators, or vents.
- Vacuum or wipe with a cloth regularly to remove dust.

For items used on wooden floor, hard surfaces or carpets, it is recommended to install protective pads under all legs and supports to avoid/prevent from damages/scratches and discoloration.
