Water Bottle Holder

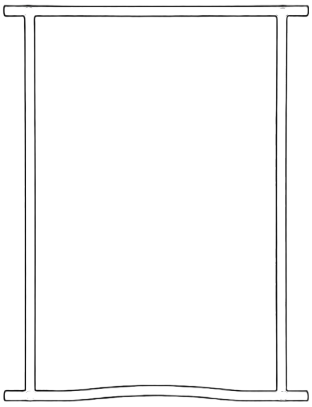

Upper Side Frame (2pcs)

Lower Side Frame (2pcs)

Horizontal Shelves (5 pcs)

Center Rod (4pcs)

X-brace (2pcs)

Screws (20 pcs)

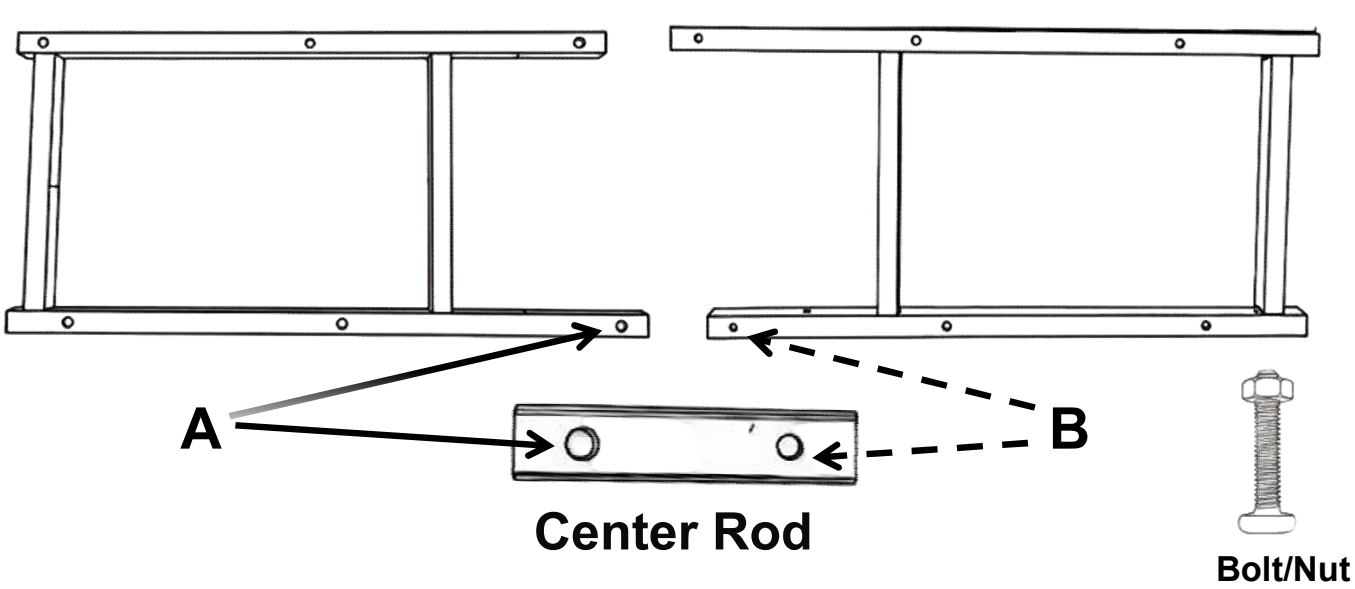

Bolt/Nut (8pcs)

Allen Key/Wrench (1 pc)

Adjustable Feet (4 pcs)

Step 1: Install Side Frame

- Align Hole A: Align Hole A of the **Upper Side Frame** with Hole A of the **Center Rod**.
- Align Hole B:Align Hole B of the **Center Rod** with Hole B of the **Lower Side Frame**
- **Secure:** Once the holes of all three components are aligned, insert the **Bolt/Nut** and tighten them.

Step 2: Attach the Bottom Shelf

Align the Bottom Shelf with the lowest holes on the Side Frames. Insert the Screws through the frame into the shelf. **Important:** Do NOT tighten the screws completely at this stage. Keep them slightly loose to allow for adjustments.

Step 3: Assemble Remaining Tiers

Repeat Step 2 for the remaining four Horizontal Shelves, moving from the bottom up. Ensure the curved cradles on each shelf are facing the same direction.

Step 4: Tightening and Reinforcement
Cross-tighten the X-brace using **Bolt/Nut.**

Step 5: Align and Final Tighten
Place the rack on a flat surface and ensure it stands straight. Use the Allen Key/Wrench to tighten all 28 screws firmly.
