

Assembly Instruction

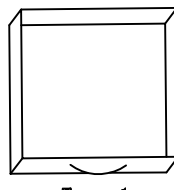

Top part=2

Top triangular bracket= 2

Bottom grill=1

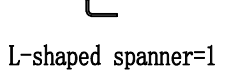

Tray=1

Perch=3

6x30 bolt=12

L-shaped spanner=1

Cup=2

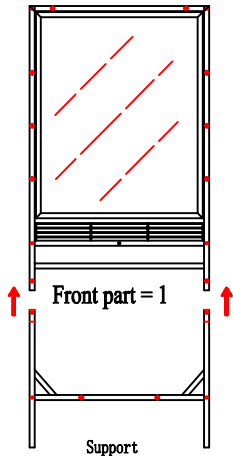

6x20 Bolt & Nut = 12

6x7 Bolt & Nut = 8

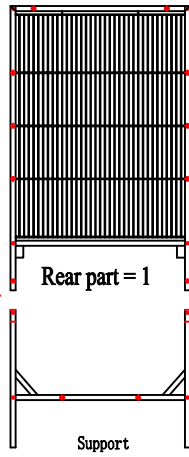

Caster=4

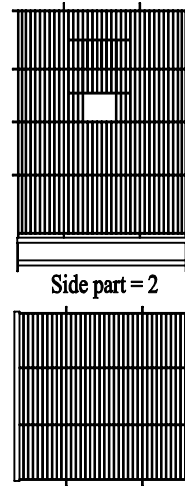

Front part = 1

link the stand and front grid with M6x20mm bolts and nuts, then link the rear grid in the same way

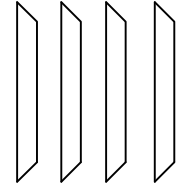

Rear part = 1

Side part = 2

shelf grill=1

6x7 Bolt & Nut = 8

Splash-proof baffle
(Select accessories)

Please follow the following steps to connect and fix each part together.

3. Installation of the cage:

Connect the front frame with the side net and the rear frame with M6*30 bolts. The thread heads on both sides of the side net are aimed at the square holes of the front frame and the rear frame, as shown in the figure.

Insert and install the pulley

2. Installation of pulleys:

Insert the pulley into the front frame and the feet of the back frame, as shown in the figure.

4. Top assembly installation:

Use M6*20 bolts and nuts to connect the top net to the top mesh triangle bracket. First connect all the bolts, 50% of the tension on the bolts, then adjust the parallel, and then lock the bolts, as shown in the figure.

5. Installation at the top:

Connect the front frame and the top mesh assembly and the back frame with M6*30 bolts, and the wire head of the side net is aligned with the square hole of the top mesh, as shown in the figure.

Cup installation

Bottom grill Tray

shelf grill=1

6. Installation of shelf:

Connect the front frame and the shelf and the rear shelf with M6*30 bolts. The thread heads on both sides of the shelf are aimed at the square holes of the front shelf and the rear shelf, as shown in the figure.

Insert the bottom net and chassis into the corresponding guide rail, as shown in the figure.

Optional accessories: splash-proof baffle installation:

Connect the "splash-proof edge" with M6*7 bolts and nuts, as shown in the figure.

Anti-splash baffle

Check whether each part is installed correctly, gently swing and balance the product, and finally tighten the bolts. After the product installation is completed, install wooden sticks, food boxes and other accessories according to your personal pet habits!
