

- Put B1 outside of terrarium and B2 inside of terrarium and then rotate B2 clockwise.

- Please align the arrow and install A into B.
- Please follow the direction "CLOSE" and rotate it to lock.

7. Install top metal ventilation mesh and the 4 rubber caps on top of the screws to cover the screws.

Done!

WARNING

The distance between the plastic frame on top of the terrarium to the edge of the heat lamp metal dome must be a minimum of 1cm, this is to prevent the burning of the plastic frame from the heat of the heat lamp metal dome.
