# Assembly Preparation

## Owner's Manual

Please check local building codes regarding footings, location and other requirements before beginning construction.

## Assembly instructions:

Reviewing all instructions and the appropriate information before you begin, make sure following the step sequence carefully for successful results.

## Flooring base:

A good location for the storage building is a square and level area with good drainage. The base is not included in the kit which may need purchase separately or may construct a foundation and anchoring system of your own. The foundation base should be 10 cm larger than the base rail of the shed (minimum 10cm thickness concrete slab is recommended).

A strong plastic sheet (thickness: at least 150µm) should be placed under the foundation to assist in reducing rising dampness from the soil, thus reducing condensation build up in the shed. Your storage building must be anchored to prevent wind damage.

## Parts and Parts List:

Before you start, check to be sure that you have all the necessary parts for your building (refer to the Parts List Page). Do not attempt to assemble the building if parts are missing because any building left partially assembled may be seriously damaged by light winds.

Please tear off the safety protection layer before assembly, keep the part number label if needed.

## Tools you need:

## Safety must be put in the No. 1 position:

1. Select a dry and calm day for your assembly. Team works (Two or more people) are required during the assembly. It is also recommended to finish the assembly in a day to avoid damage to the product or missing of some small parts. Keep all small parts (screws etc.) in a bowl so they do not get lost.
2. Wearing safety gloves, eye protection and long sleeves during the assembly to prevent injury. Pay attention to the sharp edge of some parts.
3. Children and pets are not allowed entering into the construction site.
4. Never concentrate your total weight on the roof of the building. When using a step ladder make sure that it is safe.

## Care & Maintenance:

1. Keep the shed clean with soft cloth, use water if necessary.
2. Clean the snow timely with necessary tools to make sure it is safe to enter into.
3. The shed is not made for living but storing stuff.

**Thank you for choosing Oakville furniture Patio Storage Shed. We take pride in delivering a high-quality product that is designed to enhance your outdoor living space and provide reliable storage solutions. To ensure your satisfaction and peace of mind, we offer the following limited warranty and important information regarding caution and maintenance. Please read this carefully.**

## Limited Warranty

---

- We stand behind the quality of our Patio Storage Shed and offer a limited warranty to the original purchaser. The warranty covers defects in materials and workmanship for a period of 3 years from the date of purchase. During this warranty period, we will repair or replace any parts or components that are found to be defective, free of charge.
- Please note that the warranty does not cover damages resulting from improper installation, misuse, abuse, neglect, accidents, or natural disasters. It also does not cover damages caused by unauthorized modifications or repairs.
- To make a warranty claim, please contact our customer service team with your proof of purchase and a detailed description of the issue. Our team will guide you through the process and ensure a prompt resolution.

## Important Information

---

- **Cautious Handling:** When assembling or moving the Patio Storage Shed, please exercise caution and follow the provided instructions carefully. Seek assistance if needed, as the shed's components can be heavy. Take care to avoid personal injury and property damage during the installation process.
- **Proper Anchoring:** It is essential to properly anchor the Patio Storage Shed to the ground or a suitable foundation. This will ensure stability and prevent damage caused by strong winds or extreme weather conditions. Use the recommended anchoring hardware and follow the instructions provided.
- **Regular Maintenance:** To keep your Patio Storage Shed in optimal condition, we recommend regular maintenance. Clean the shed periodically using mild soap and water, and avoid using abrasive cleaners or solvents that may damage the materials. Inspect the shed for any signs of wear, loose fittings, or damage, and address them promptly to prevent further issues.
- **Snow Removal:** In areas with heavy snowfall, it is important to remove snow from the roof of the shed to prevent excessive weight and potential collapse. Use a soft-bristle brush or a snow rake to carefully remove snow buildup, avoiding any damage to the shed's surface.
- **Ventilation and Moisture Control:** Our Patio Storage Shed is designed with built-in ventilation to ensure proper air circulation. However, it is advisable to periodically check for any moisture buildup inside the shed. Keep the vents clear and address any condensation issues promptly to prevent damage to stored items.
- **Safety and Security:** The Patio Storage Shed features lockable doors for added security. We recommend utilizing the locking mechanism to safeguard your belongings. Additionally, ensure that the shed is placed in a secure location within your property to deter unauthorized access.

---

Please retain your proof of purchase and warranty information for future reference.

For any questions, concerns, or warranty claims, please contact our customer service team. We are here to assist you and provide the necessary support.

**Thank you once again for choosing our Patio Storage Shed. We hope it brings you years of reliable storage and enjoyment for your outdoor space.**
