AD-1760-BP

**Brand:**

Aqua Dream

**UPC:**

[Not provided]

**Product Name:**

Aqua Dream 230 Gallon Tempered Glass Ultra-Transparent Aquarium - Black Premium, (Complete Aquarium Setup)

**Price:** \$5,599

**Key Product Features:**

1. **High-Capacity Aquarium:**

This 190-gallon tank offers generous space for fish, corals, and plants, stabilizing water conditions and reducing fluctuations. Ideal for reef-building, live rock setups, or planted environments, it is perfect for both beginner and experienced aquarists.

2. **Ultra-White Tempered Glass:**

Constructed from low-iron tempered glass (~0.55 inches thick) with 91.5% light transmittance, this tank offers crystal-clear visibility. It's scratch-resistant, fingerprint-proof, and bonded with biophilic silica gel, providing 20 years of saltwater erosion resistance.

3. **Durable Aluminum Stand:**

The high-quality aluminum stand is designed to be strong, warp-resistant, and corrosion-proof. Its reinforced structure prevents bending, while the waterproof finish safeguards against spills. The integrated cabinet conveniently hides filtration equipment for a neat setup.

4. **Integrated Sump Filtration:**

The 40-gallon sump system ensures efficient water purification. Featuring a wet-dry filtration setup, it enhances biological, mechanical, and chemical filtration. The included 1450 GPH pump maintains optimal water flow, and modular filter media dividers allow for customization.

5. **Enhanced LED Lighting Setup:**

Equipped with two tri-color LED lights, this system offers customizable illumination. The energy-efficient LEDs provide natural lighting, and adjustable modes mimic day and night cycles. Secure mounting brackets help reduce glare.

**Product Description:**

The Aqua Dream AD-1760-BP is an all-in-one aquarium solution that is perfect for marine or freshwater setups. Its ultra-white tempered glass provides exceptional clarity, showcasing the

vibrant colors and fine details of your aquatic life. The premium aluminum stand not only offers excellent support but also features built-in storage for the sump filtration system, which includes wet-dry filtration, modular media dividers, and a 1450 GPH submersible pump.

Additionally, the tank includes two tri-color LED lights that allow for customizable lighting tailored to coral growth, fish health, or plant development. Whether you're an experienced hobbyist or new to aquatics, this setup has everything you need to create a thriving aquatic environment.

#### **Warranty:**

- 3-year warranty for the tank and stand
