- LAY BACK AND RELAX WHILST LISTENING TO THE SOOTHING SOUND OF RUNNING WATER
- SOLAR POWERED FOUNTAIN
- THE WATER TRICKLES DOWN FROM EACH TIER OF THE FOUNTAIN CREATING A WONDERFUL SOOTHING SOUND AND THEN RECYCLES BACK INTO THE FOUNTAIN AGAIN
- SIMPLY PLACE THE FOUNTAIN IN A WELL LIT AREA OF YOUR GARDEN AND ENJOY
- MADE FROM WEATHER RESISTANT POLYRESIN

SPECIFICATION :

- The Battery : LI-ION 7.4V/2200MA
- The Size of Solar Battery : 90MM x 43MM
- The Power of Pump : DC 4.5-12V, 0.8-6W
- Max Flow Quantity of Pump : 250L/H
- Max Water Height of Pump : 100cm

Installation instructions:

1. Attach the pump to the solar panel before use, plug the sprinkler head or hose into the outlet of the pump. Make sure the water level covers the pump, but is lower than the sprinkler head.
2. Plug the power line of the pump into the plug of the solar panel, and then fasten.
3. Position the solar panel in full sun to optimally run the pump, Press on the switch at the back of the solar panel, the backup battery will be charged from the solar panel during normal operation and automatically run the pump without sunshine.
4. When we use the solar panel, we must press the button to ON state. Then the solar pump will work and the battery will be charged in this state. Only the battery was full of charge then the solar pump can work without sun light, Battery status: Red: need charged; Orange :half charged ;Green: fully charged, When led light shows red or orange indicates it need to be charged.
