

Accessories List

1 · Please don't dismantle the rubber bands that bind the poles immediately, we have tied the poles together according to length, width and height. Please use the table below to confirm that the size you ordered has the correct quantity of all accessories. Please contact us if there is anything missing.

2 · Please dismantle the rubber bands in sequence as shown in the figure below, and install the rods of length, width, height. The following installation takes the King size as an example.

3.1 · Measure the assembled length and width rods against the edge of your bed. If both length and width are slightly longer than your bed. Please install the height rods as shown in the next step.

If your bed size is slightly longer or wider than the poles, continue to pages 3 and 4 to find the corresponding situation.

3.2 · According to the position measured by the length and width rods, place the height rod on the diagonal of the bed. If there is no headboard or the width of the headboard is relatively thin, the height rods at the head of the bed can be installed on the back of the headboard.
