Solar Peacock Statue Garden Decoration – General Instruction Manual

Product Overview

Made of durable, weather-resistant resin, this solar peacock statue is built for long-term indoor and outdoor display. Showcasing a realistic peacock figurine standing atop a tree stump, the sculpture is adorned with integrated solar lights along its tail feathers. A manual on/off switch is fitted on the base for light control. This striking statue serves as a gorgeous focal point to beautify your garden, patio and outdoor scenery.

Applications

Ideal for placement in gardens, lawns, patios, balconies, backyards, courtyards and indoor leisure corners.

Usage Instructions

Place the ornament on a flat, level and stable surface to avoid tipping.
Use the manual on/off switch located on the base to turn the solar lights ON or OFF.
Put the solar panel under direct sunlight for charging to power the lights.
Do not climb, stand, lean heavily or place heavy items on the figurine.
Avoid heavy impacts, which may crack the statue and damage solar components.

Care & Maintenance

Clean surfaces regularly with a soft cloth and mild soap, then rinse and dry thoroughly.
Do not scratch the solar panel.
The resin material delivers good weather resistance. Avoid prolonged exposure to continuous heavy rain and intense direct sunlight to reduce fading and material wear.
Wipe dust off the solar panel regularly to maintain good charging performance.
Store in a dry, ventilated area when not in use for long periods or during severe weather.

Warning

This item is a decorative garden statue. It is not designed for heavy-duty commercial use.
