FEATURES:

Rising like a temple spire on a mountainside in a faraway land, our Malayan Floor Lamp has the elemental flair that gives master woodworkers bragging rights. The fluted stem, made of rubber wood, exudes warmth to make this floor lamp a knock-out in interiors with vintage, mid-century modern or ethnic-inspired styles. No surprise it was originally designed by Phyllis Morris. The tall, thin light eggshell linen shade we've placed atop this composition makes it all the more commanding.
