

RENEGADE LED High Bay

Precision that Adapts

#1 Selling High Bay Brand in North America

RENEGADE by Lithonia Lighting® defies the norm and sets a new pace for precision and adaptability for switchable high bays. Powered by **SwitchOptics**™ technology and a patented micro-prism lens, RENEGADE adapts seamlessly and achieves precise optical control. With a die-cast construction and a full suite of listings, dependable performance is delivered across a variety of applications – bringing everything together in a single streamlined solution. RENEGADE is Precision that Adapts.

Quick Facts

- Up to 27-SKUs-in-1 with Switchable Color Temperature, Adjustable Lumens and **SwitchOptics**
- **SwitchOptics** delivers three distribution patterns from a single RENEGADE high bay
- Patented Micro-Prism lens enabling precise 360° optical control and low-UGR
- Ease of Ordering with Size 1, 2 and 3 Nomenclature
- Tool-less, field installable or embedded controls for easy control capabilities
