Appearance

Crafted with ultra-soft corduroy fabric that feels smooth and gentle on the skin, adding visual warmth and tactile comfort to your space.

Structure

The wide and generously angled backrest supports long hours of lounging, offering the perfect mix of relaxation and structure.

Material

Seat cushions feature a blend of high-density foam, synthetic fiberfill, and a built-in spring pack, balancing softness and responsiveness.

Design Details

Sturdy legs made of solid wood ensure exceptional stability and strength, complete with non-slip pads to protect your floors.

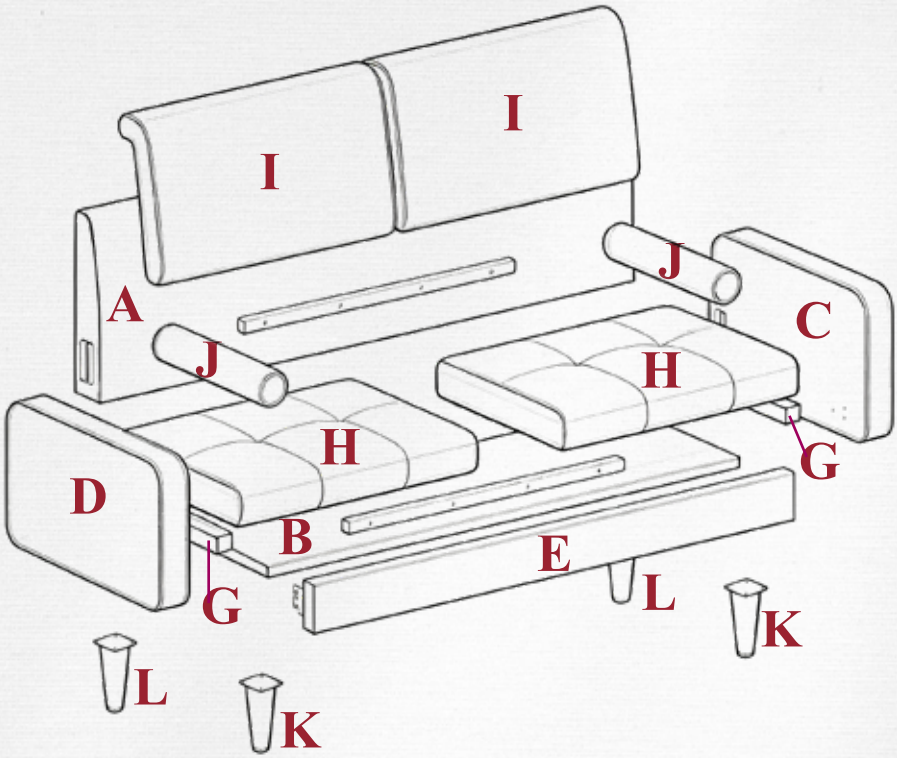

Applicable Space

Two cylindrical bolster pillows sit neatly at both ends, offering extra arm support and adding a tasteful decorative element.

⑤*1

Allen key

STEP1

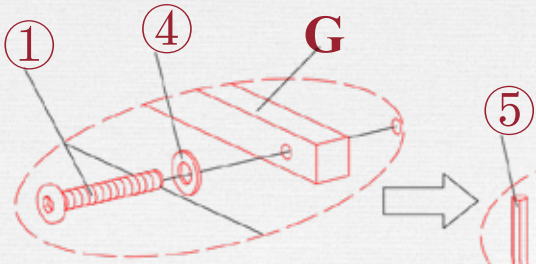

Cut open the air compression bags, take out the back cushions (I) and seat cushions (H), and let them fully expand — recovery may take up to 48 hours, but gently patting them will speed it up.

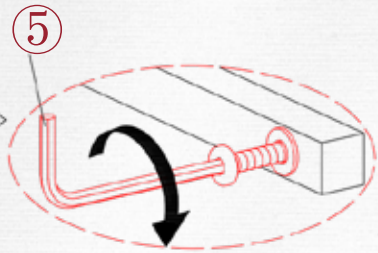

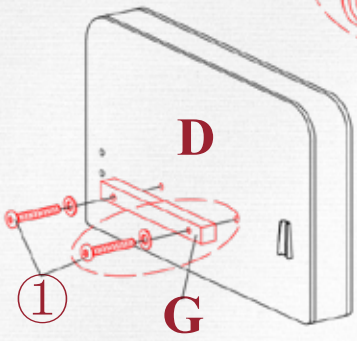

STEP2

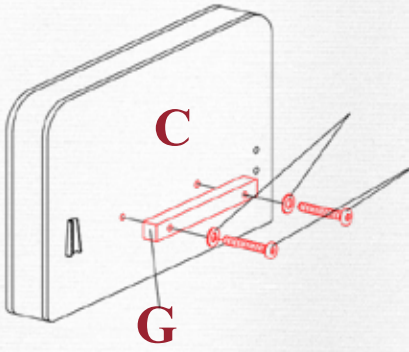

Install the side rail bars (G) onto both armrests (D & C) as shown, tighten the bolts and washers (1 & 4) with the Allen key (5) provided, and make sure all bolts are fully tightened before the next step.

Tip: Place a rug or some covers underneath the seat frame to protect your floor and the product.

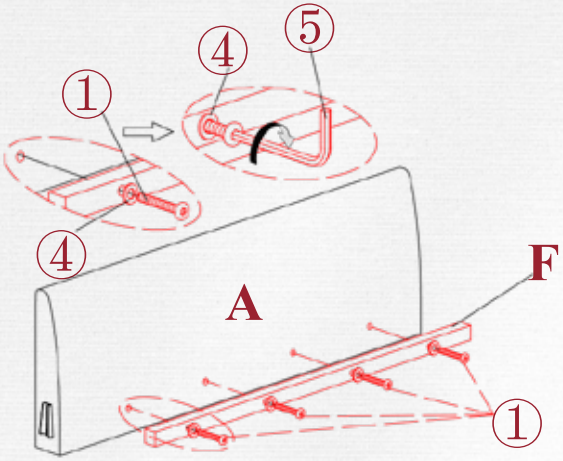

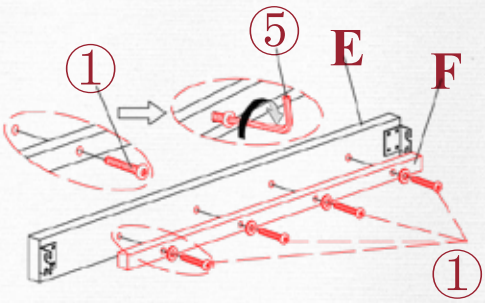

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

STEP3

Install the back rail bar (F) onto the backrest (A),
tighten the bolts (1) with the Allen key (5) provided,
then install the front rail bar (F) onto the front rail (E), tighten all the bolts (1),
and make sure everything is fully tightened before the next step.

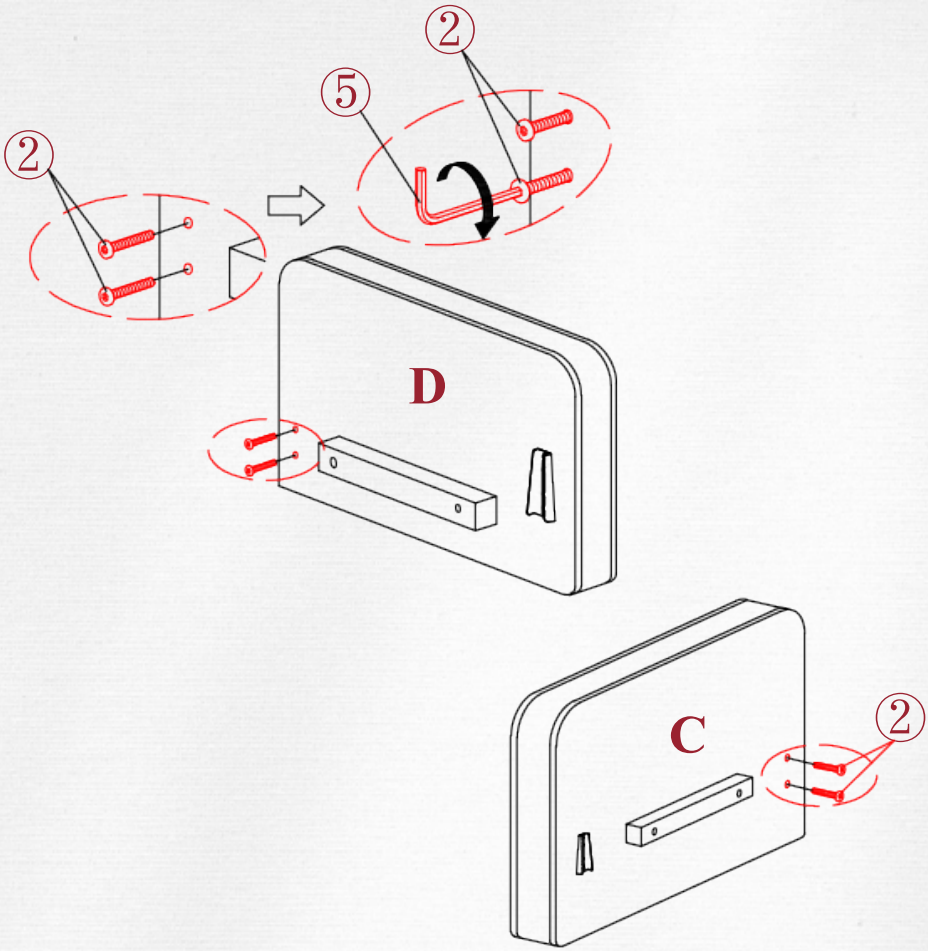

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

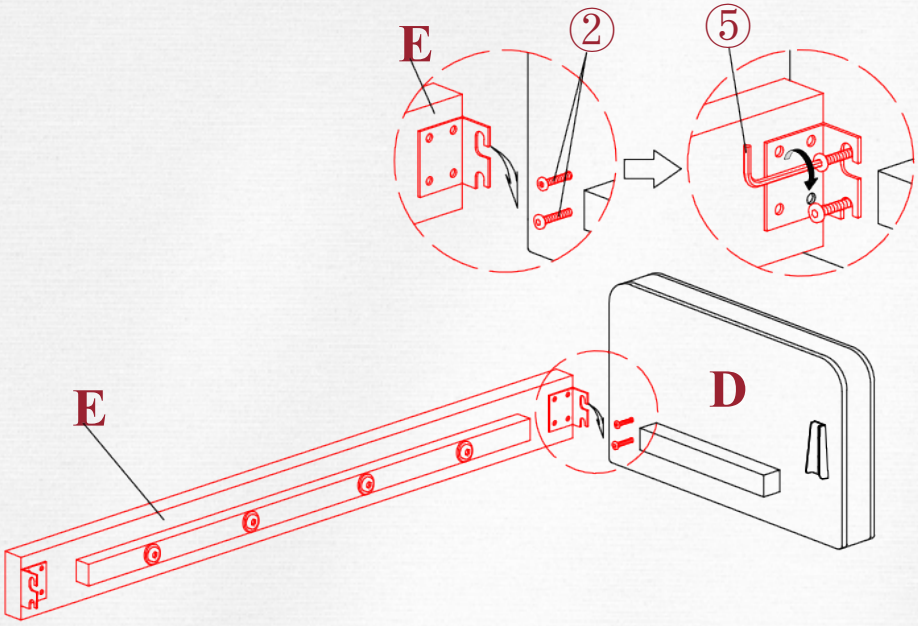

STEP4

Screw two bolts (2) into each armrest (D & C) to about 1/3 of their length, and do not fully tighten them.

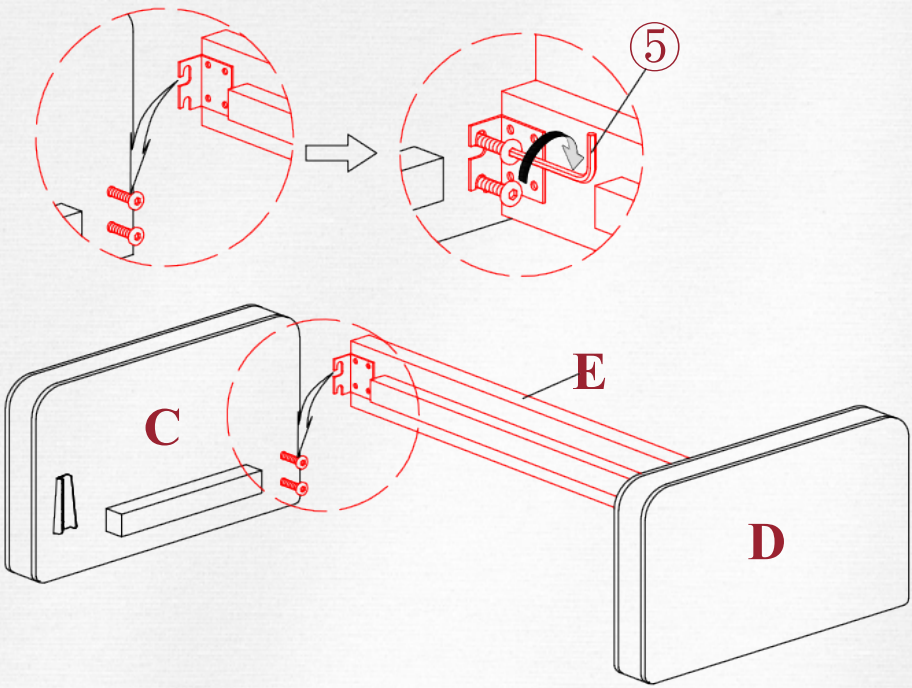

STEP5

Connect the front rail bar (E) with the right armrest (D) by placing the bolts (2) on armrests from previous step into the slots on the rail bar as shown, then tighten the bolts using the allen wrench (5) provided. Make sure both bolts are aligned into the correct position before tighten.

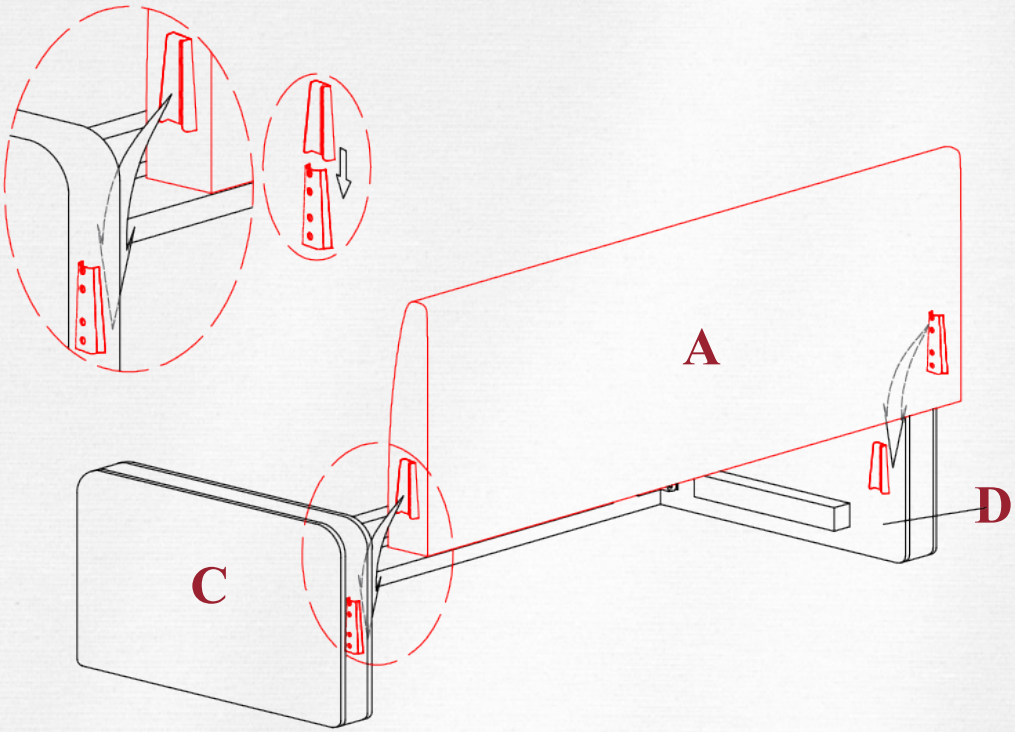

STEP6

Insert the pre-installed bolts (2) on the left armrest (C) into the slots on the front rail bar (E) as shown, tighten them with the Allen key (5) provided, and make sure both bolts are correctly aligned before fully tightening.

STEP7

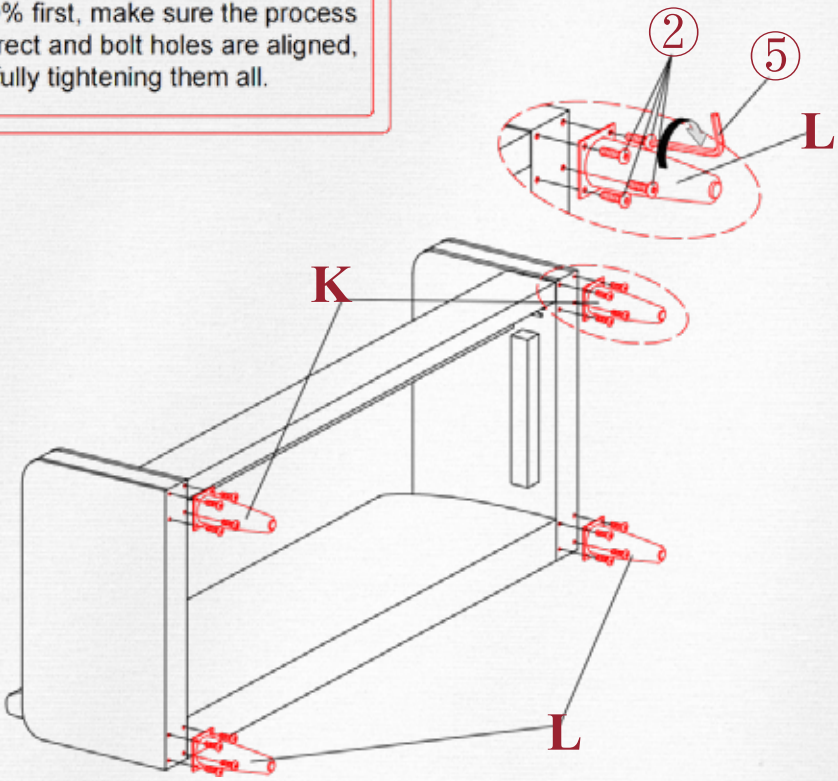

Insert the connectors on both sides of the backrest (A) into the slots on the armrests as shown, check that both connectors are correctly aligned, then push the backrest down.

STEP 8

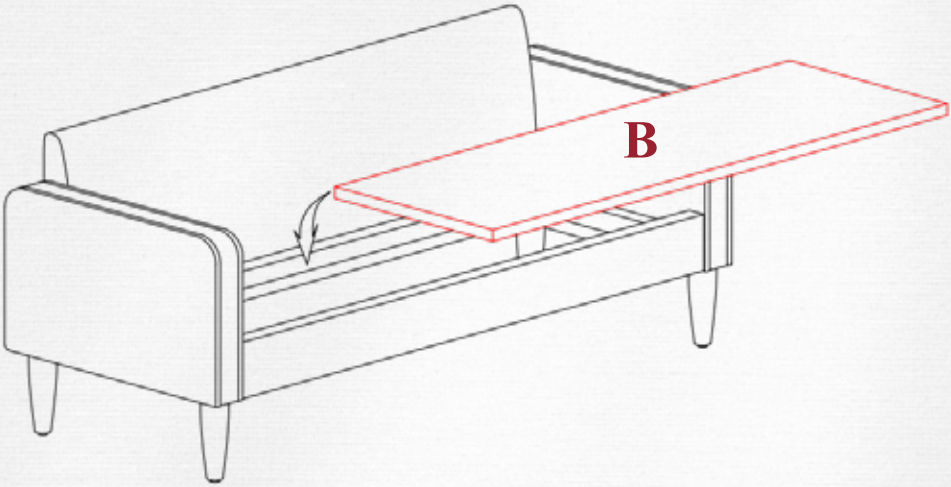

Install the front legs (K) and rear legs (L) onto the seat frame as shown, tighten the bolts (2) with the Allen key (5) provided, and make sure all bolts are fully tightened.

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

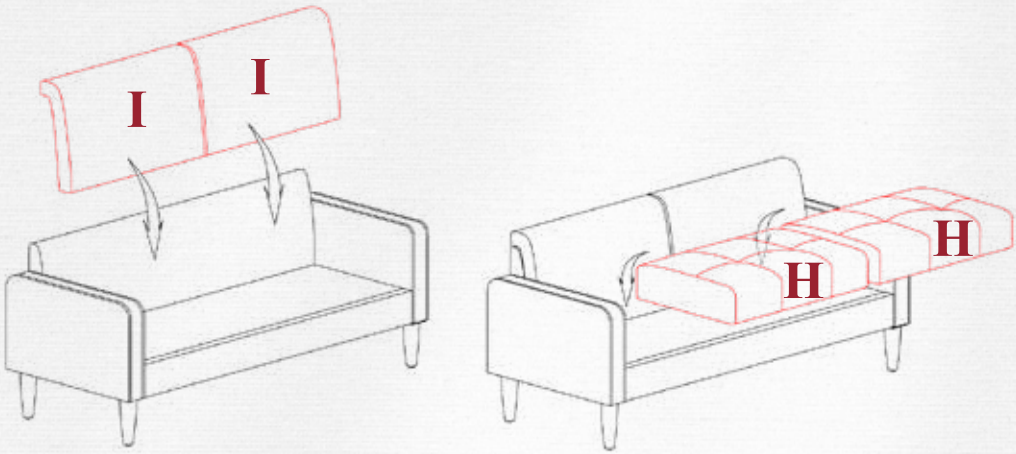

STEP9

Place the seat frame (B) onto the sofa as shown, and make sure it is aligned correctly.

STEP10

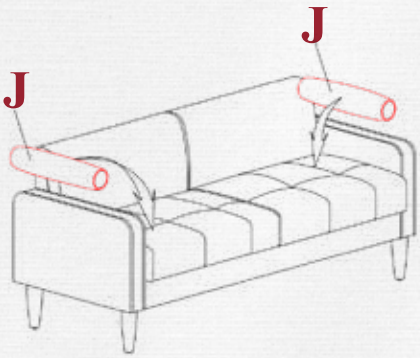

Tear off the Velcro strip covers under the back and seat cushions, then place the back cushions (I) and seat cushions (H) onto the seat frame as shown.

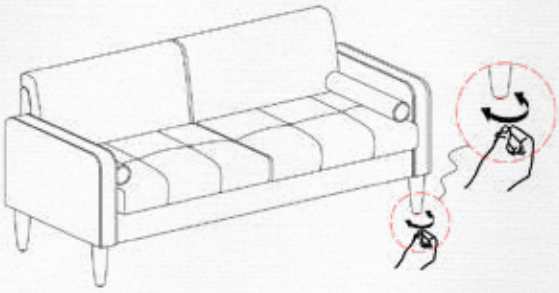

STEP11

Place the armrest cushions (J) onto the seat frame as shown.
Congratulations, your assembly is complete! Thank you for choosing our product， enjoy your new sofa!
Note: Turn the lever at the tip of each leg as shown to adjust the height —this keeps the chair level on uneven floors, so check the adjustment before use.
