

Installation

A: Open the folded bend tube on the main body (1) of the lamp body, spread the spacing evenly, rotate and fix the whole tooth tube (2) to the main joint, and fasten it with nuts

B: Pass the horn cover (3) bamboo piece hardware (4) through the whole tooth tube (2) successively, and then rotate and lock the straight tube (5) and the straight tube combination (6) successively.

C: Rotate the ring assembly (7) to the straight tube assembly (6), and then hang the chain (8) to the ring assembly (7) and the cap assembly (12), connect the lamp body and the cap, and pass the wire through the chain and the cap assembly.

D: Lock the one-piece hanging plate (9) to the junction box with screws (10), connect the lamp body wire and power cord together with wiring cap (11), and then fix the ground wire.

E: Fix the suction cap assembly (12) to the ceiling with flower branches (13).

F: Fix the flat cover (14) to the lamp body with cylindrical iron (15), cover the sleeve (16) to the lamp holder, and then install the bulb (17) (not including the bulb).
