

# LINEAR OPTIONS™

## LINEAR CUTTING SERVICE

### DESIGN ALONG NEW LINES.

---

**Think outside the box.** With Linear Options, Daltile is able to cut your choice of floor tile into linear and rectangular sizes for unique custom designs. We offer a wide variety of rectangular shapes, ranging from a minimum of 2" wide to a maximum of 24" long. A selection of core products is available within three weeks of your order, plus any of our floor tile can also be cut by special order.

**Create with an edge.** Daltile's Edge Detail will match your cut edges with the finished edge of your chosen product line—whether straight or beveled. You'll even receive a sample to approve prior to completing your order.
