Suspension Distance: 0.59 inches

Base size: 13.4 inches * 13.4inches * 1.1 inches

Pot Dimensions: 9 inches in diameter, 1.96 inches in height

Material: ABS

power supply 12V 1A

Wattage Rating: 5-10W

How To Use (Please check the installation manual before installation)

1. Turn on the power and place the base horizontally on the table
2. Hold the globe from the center of the base 3.9inch position, vertical down (move down at the same time, pay attention to keep the flower pot horizontally)
3. When the flower pot drops to about 0.59inch above the center of the center (when you feel the strong magnetic field to push the flower pot up) and then slowly release the hands
4. When you release your hand and feel that the flower pot is shifted in a direction, move it gently in the opposite direction by hand.
5. Until you feel that it is no longer offset, the flower pot has found the center point at this moment, you can completely release the hands.
