Earthen Serenade 2

D2805S56093-4707

Earthen Serenade 2 showcases the nuances of Abstract Illusionism, a style that joins abstract elements with painterly techniques to create three-dimensional depth on a flat surface. Here, perspective is offered in unexpected ways that challenge the viewer's perceptions. Depth and dimension are cleverly rendered through skillful shading and gradient techniques. The eye is intrigued by objects that appear to hover above the canvas as their shadows create spatial uncertainty. The brown palette in beige, cocoa, and mocha is set against contrasting touches of sky blue, navy, and white. A closer look reveals hand-drawn marks that further enhance the illusionistic experience. A mesmerizing composition on canvas, Earthen Serenade 2 is an alluring addition to ART by TA. Pairs beautifully with Earthen Serenade 1 and 3.
