

# ASSEMBLY AND INSTALLATION INSTRUCTIONS

## Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or an electrician.

## Installation Instructions

### Step A: Preparing the Center Rod and Main Wire

1. Secure the straight rod (17) onto the central base (25).
2. Thread the main wire (11) through the threaded pipe (16) and then through the metal fixture (14).
3. Tighten the straight rod (17) onto the threaded pipe (16).

### Step B: Attaching the Ceiling Plate

1. Thread the main wire and ground wire through the hanging rod (7).
2. Use screws and washers (26) to secure the ceiling plate (6) to the hanging rod (7).
3. Tighten the bottom of the hanging rod (7) into the metal fixture (14) and secure it with side screws (15).

### Step C: Assembling the Upper Part of the Light Fixture

1. Insert screws (9) through the square tube frame (8) and tighten them.
2. Secure the lower ends of the side support rods (13) and place the glass (18) on the support inside the square tube frame (8).
3. Secure the upper ends of the side support rods to the ceiling plate (6) using screws (12). This completes the assembly of the upper part of the light fixture.

### Step D: Use mounting screws (3) to secure the mounting bracket (1) to the junction box.

### Step E: Wiring the Fixture

Connect the positive marked wire of the main wire (11) to the positive power supply wire using wire nuts (10). Similarly, connect the unmarked negative wire of the main wire to the negative power supply wire using wire nuts (10). \*\*\*Ensure no bare wires are exposed to prevent electrical hazards. \*\*\*

Use a green screw (2) to attach the fixture's ground wire (4) and the external ground wire to the mounting bracket.

### Step F: Use screws (5) to secure the ceiling plate (6) to the mounting bracket (1).

### Step G: Attach the rod (21) to the central hub base (20), then install the bulb. (Bulb not included)

### Step H: Installing the Glass Shades

1. Place the glass (22) onto the support inside the square tube frame (8).
2. Thread the decorative metal fixture (24) through the rubber ring (23) and the glass (22).
3. Tighten the glass (22) by securing it to the straight pipe (21) with the decorative metal fixture (24).
