

## DRUMMING ANIMATED STRING LIGHTS

Our Drumming Animated String Lights comes in 2 pieces for easy storage and shipping. Place top onto bottom and plug the female outlet on bottom of top to the male outlet that is at drum. Main power source is located at base of bottom at feet. Piece may require additional support due to height.

The 2 Channel Animated controller is attached the 2 male outlets and allows the animation. Controller gets plugged into straight power and adjust speed to your taste.

Drumming Animated String Lights is same process but with no animation box (or extra arms) plug in together at waist and than straight power at base of soldier.

Our Drumming Animated String Lights comes in 2 pieces for easy storage and shipping. Place top onto bottom and plug the female outlet on bottom of top to the male outlet that is at drum. Main power source is located at base of bottom at feet. Piece may require additional support due to height.
