Not included

# Flush Mount Instruction

## Safety Warning

Please turn off power at breaker panel before installation.

---

## Installation Steps

- **Step 1: Attach the Mounting Bracket**

Attach the circular mounting bracket to the ceiling junction box using the provided screws. Ensure it's securely fastened to the ceiling.

- **Step 2: Wire Connections**

Make the proper electrical connections. Connect black wire (hot) to black, white wire (neutral) to white, and green wire (ground) to ground/bare copper wire.

- **Step 3: Secure the Canopy**

Secure the fixture base/canopy to the mounting bracket by aligning it with the bracket and tightening the decorative nuts or screws as indicated by the arrow.

- **Step 4: Install the E12 Bulbs**

Install 3 E12 light bulbs by inserting them into the sockets and turning clockwise until secure.

- **Step 5: Attach the Glass Shades**

Attach all three glass shades to the fixture by sliding them over the light sockets and securing them in place. The diagram shows one cone-shaped glass shade - repeat this step for all three sockets.

---

## Final Check

Once installation is complete and all three glass shades are properly attached, restore power at the breaker panel and test the light fixture.

Please contact us if you have any problems installing the lampshade. We will work you through the process.
