Applications

Developed to be the perfect Undercabinet LED lighting luminaire for commercial, retail, hospitality and residential applications. The luminaire can be used under and over-cabinets, task and utility work areas. The low-profile modern looking sleek design is available in lengths 14, 22 & 32 inches to handle a wide variety of lighting requirements. The luminaire can be dimmed from 100% to 10% using virtually any wall dimmer.

Construction

Available in soothing White color, G14, G22 & G32 models are linkable and have captive screws, clutter-free wiring compartment and using the available knockouts the luminaire can be hardwired with minimal effort or plugged in with 5 inch cord. The diffuser optics allows for an extremely smooth light pattern that eliminates most glare.

Multiple units can be linked using the included 12 inch linking cord or butt connector.

Available in 2700K, 3000K & 4000K with high CRI 86+*.
