ASSEMBLY INSTRUCTIONS

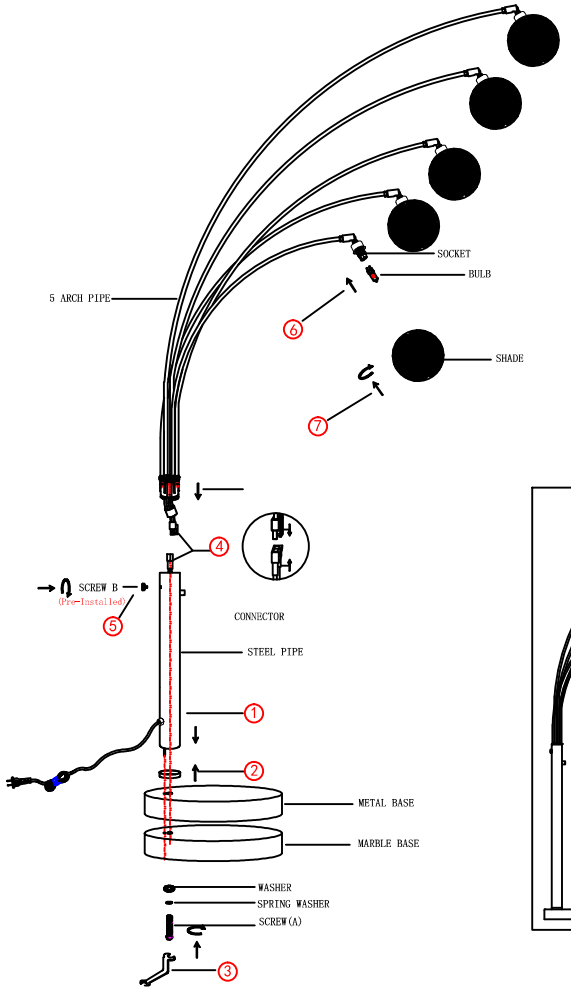
NOTE:

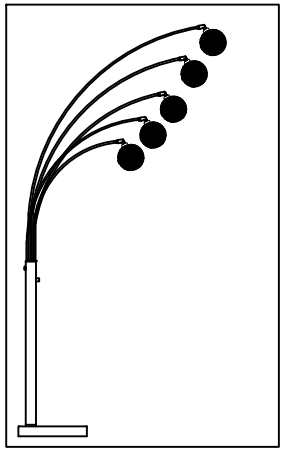
Before assembling your new lamp, please read the following precautions and instructions thoroughly.

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other)as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet one way only. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug.

The electrical wire is connected continuously through the poles. Do not pull wires during unpacking, bad connections may result.

Place the lamp indoor dry area only. The lamp produces very high temperature, always unplug electrical cord and allow sufficient time for bulb to cool down before replacing bulb.




1. Carefully unpack all parts from the packaging and place them on a flat/smooth surface. Be sure to remove all the packaging materials from the lamp.
   *Do not plug into the electrical outlet when installing or replacing bulb
2. Unscrew the pre-installed Screw(A), Spring Washer, and Washer from the bottom of the pipe. Screw the Steel Pipe onto the Metal and Marble Base with the Screw(A) Spring Washer and the Washers.
3. Screw tightly the above steps with the provided **Allen Wrench**.
4. Link up the Male and female **Connector** together.
5. Insert the **5 Arch Pipe** into the **Steel Pipe** and Secure it with the **Screw B**.
6. Place the **Light Bulbs** onto the **Light Bulbs Socket**.
   (Light Bulbs Included)
7. Thread the **Shades** onto the **Light Bulbs Sockets** through the **Shades** tightly.
8. Insert the plug into the wall outlet , you are ready to use.
