

T074 LED MATRIX PANEL

User Manual

Thank you for choosing our product!
Please read the manual carefully to make good use of the product.
Contact seller support if you have any question. We provide best service!

1. Warning

1.Please use 5V USB power adapter **NOT BELOW 2A**, otherwise will malfunction! For example: TV&Computer USB are below 2A, not applicable. Some phone chargers are 1A, not applicable.Some car U disk interface are 1A, not applicable. If abnormal,change another USB power source to check.

2.When storing the screen, you can bend it inwards with the front side facing in. Avoid excessive bending. Do not roll it outwards with the front side facing out, which may cause the adhesive surface of the screen to crack or the circuit to break.

3.When placing the screen normally, do not press the screen with heavy objects, which may damage it.

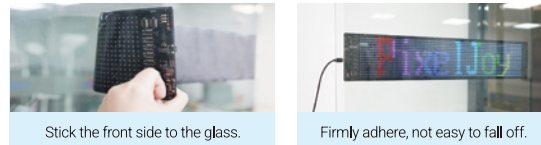

4.If the screen surface is dirty, you can use a damp cloth to wipe it, but do not touch the metal parts. Do not rinse the screen with water.

5.Refer to 'Help Center' page on app for common FAQs. If no answer, please contact seller support.

2. Install

Method 1:Installation on glass

Stick the front of the display screen on the glass door/showcase/windshield (Clean the glass and dry it before installing, which will achieve better adhesion and visual effect).

Note: For long-term installation, use double-sided tape too. Stick the tape on top and bottom edge, not covering the LEDs

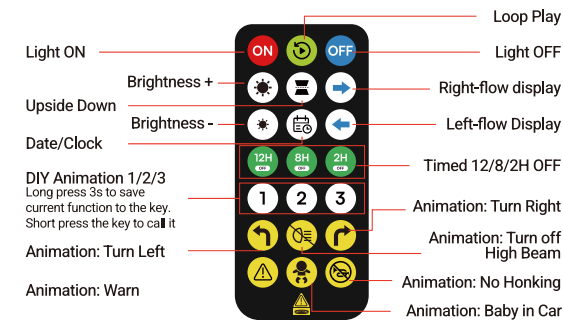

Scan for video.

Method 2:Installation on wall

First, clean dust on the wall and keep it dry. Second, apply double -sided tape horizontally and vertically on the back, then remove the cover film, select a good position, stick it to the wall, gently press where tape resides. Keep the power cord naturally sagging, or hang the cord steadily, do not pull or drag, otherwise the screen may be pulled off.

3. Remote Controller

Pair and Unpair

Long press ON key to pair the remote to a device within 10seconds it is powered on.Long press OFF key to unpair all remotes from a device within10 seconds it is powered on.After paired, a device can be controlled only by the paired remote.

To sync control multiple devices, use one remote to control them all.

9. FCC Statement

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important

Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

10. Contact us
