

BATHTUB INSTALLATION

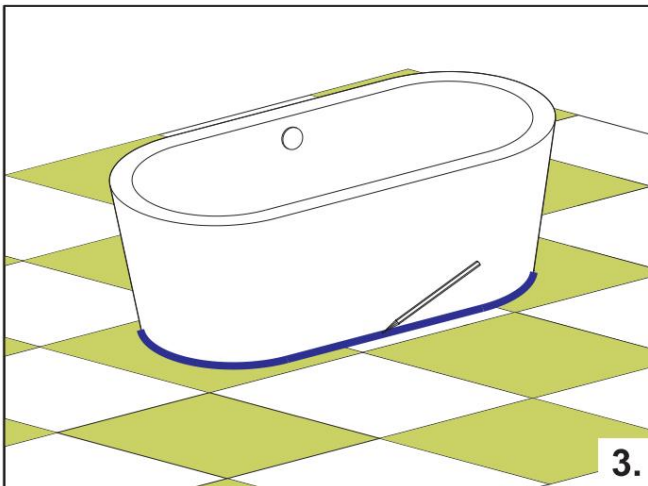

- Make sure the legs are aligned with the base of the tub.

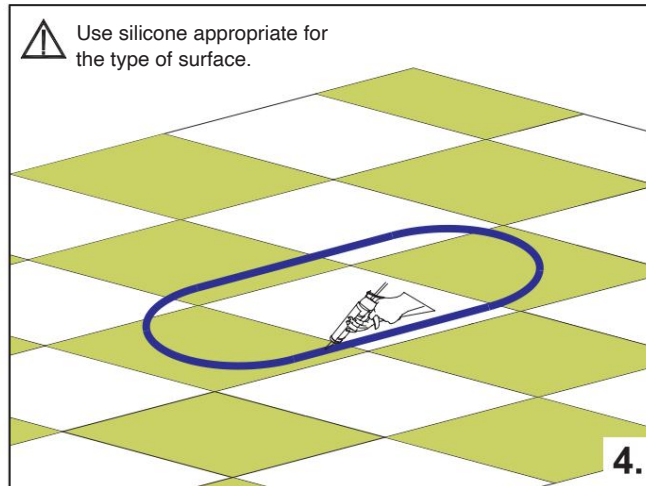

- Check that the tub is flat; if necessary, adjust the feet to compensate for the floor level.

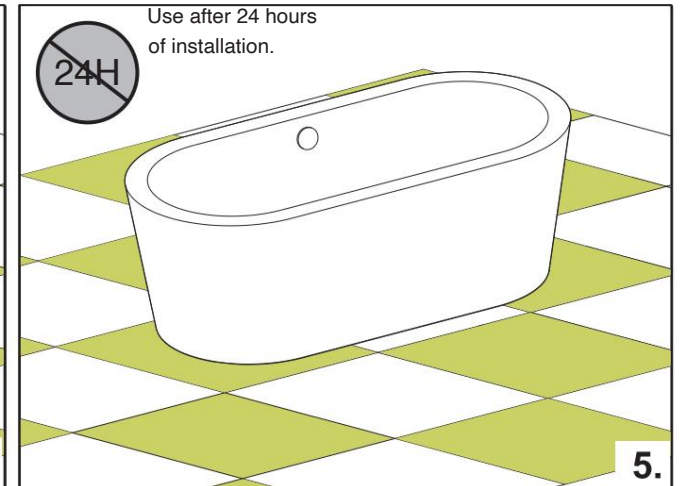

- Before step 3, put the drain fitting in position.

- Trace the outline of the bath with a pencil.

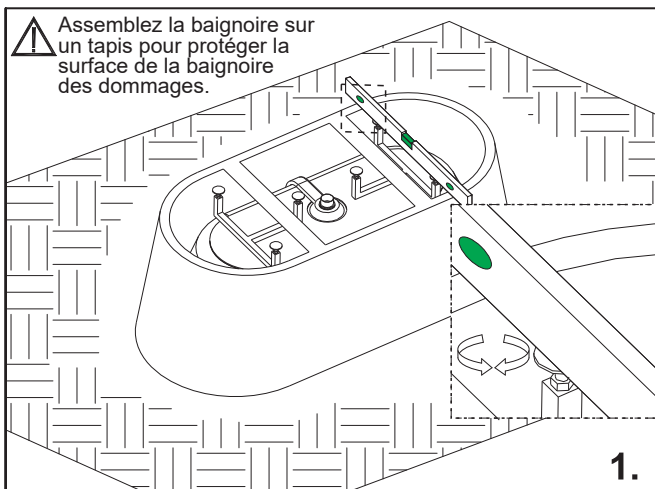

- Apply a thick bead of silicone around the edge of the bath.

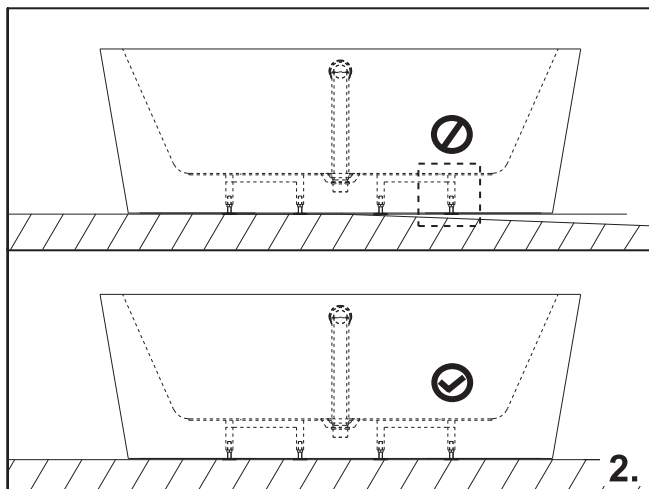

- Adjust the tub to its final position.

 This installation guide does not include details of the waste connection; the final decision regarding the installation of the waste connection must be made by a suitably qualified person.

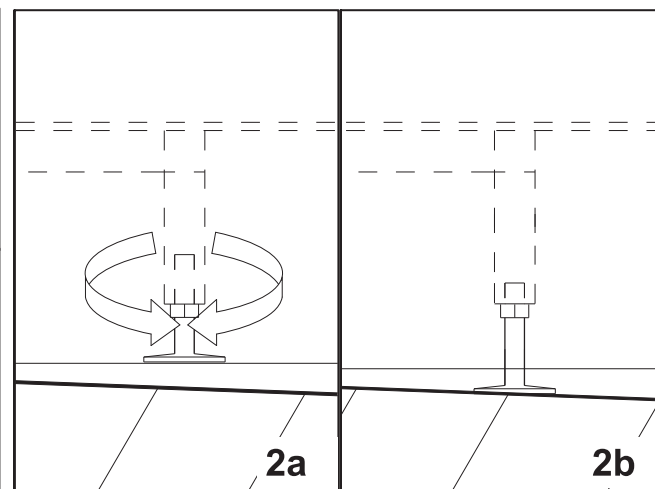

INSTALLATION DE BAIGNOIRE

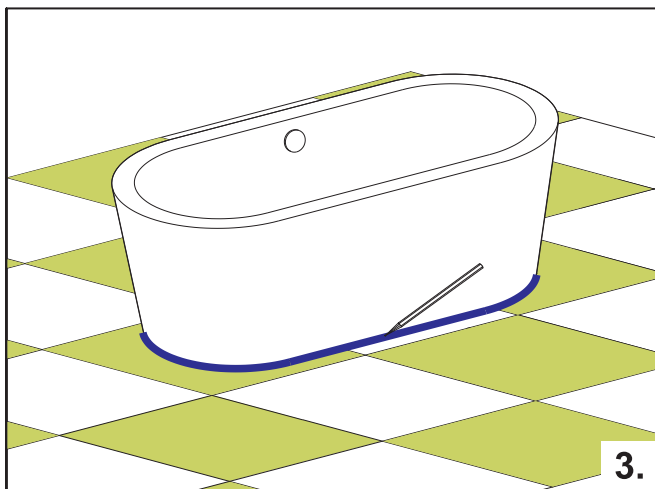

- Assurez-vous que les pieds sont alignés avec la base de la baignoire.

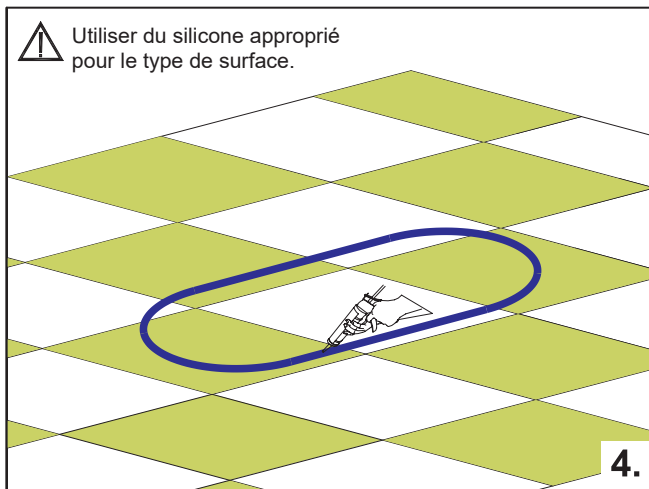

- Vérifiez que la baignoire est à plat ; si nécessaire, ajustez les pieds pour compenser le niveau du sol.

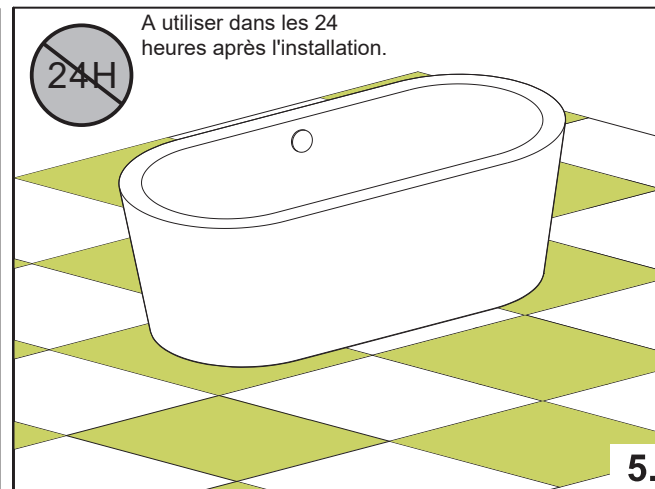

- ⚠ ● Avant l'étape 3, mettez le raccord d'évacuation en position.

- Tracer au crayon le contour du bain.

- Appliquez un épais cordon de silicone dans le contour du bain.

- Réglez la baignoire en position finale.

⚠ Ce guide d'installation n'inclut pas les détails du raccordement aux déchets ; la décision finale concernant l'installation du raccordement aux déchets doit être prise par une personne dûment qualifiée.
