Create a Productive, Beautiful Home Workspace with Acoustic Panels

Making Work from Home...Work

SLIDE DESK DIVIDERS add beauty to your work environment, while providing significant sound-absorbing benefits, decreased noise and echo, and improved visual and acoustic privacy at an affordable price. These acoustic desk dividers are also easily disinfected, durable, and eco-friendly, non-toxic, non-allergenic, non-irritating, with no-coatings/sprays that degrade.

One of the biggest challenges for those who work from home is acoustic and visual privacy—whether it be noise in the neighborhood or kids and family activities surrounding the workspace.

For decorative or professional use. **Create the privacy you need to achieve focus and higher productivity by establishing a dedicated work zone** with sound-absorbing materials. Adding SLIDE DESK DIVIDER high-density flame-retardant acoustic panels not only helps in absorbing noise, but also provides visual privacy, such as when you have an office space that is shared with other functions and people in your home or work environment. With a rainbow of colors to choose from, you can have a beautiful designer workspace!

The SLIDE is a portable, lightweight desk divider that slides onto any table to provide a quick and flexible visual and acoustic privacy solution. The SLIDE acoustic panel is designed to fit almost any flat surface, providing visual and acoustic privacy, and organizes your work-from-home space into individual workstations. SLIDE is exceptionally portable, with an adjustable mounting screw, it's easy to install on almost any flat surface.

- easily disinfected with off-the-shelf cleaners or simple bleach-and-water sprays.
- is lightweight and portable
- comes in 20 different colors
- dramatically reduces the noise and echo in the space.
- improves visual and acoustic privacy, separation and productivity

Technical Specifications:

- *Absorption:* Average NRC 0.85 (subject to mounting conditions)
- *Material:* 100% polyester fiber acoustic felt
- *Eco-Friendly:* YES, 60% recycled PET materials, 40% new material, non-toxic, non-allergenic, non-irritant, no-coatings/sprays that degrade
- *Fire Rating:* ASTM E84 Class A Fire Spread rating is permanently achieved by infusing 40% new material into the panel. We don't use sprays or coating that degrade and lose their rating status.
