CARE CLEANING AND MAINTENANCE

1. The best and safest way to clean your mirror is by using warm water and a soft, lint-free cloth.
2. Wring water from the cloth before wiping the mirror to avoid excess moisture.
3. Keep bathrooms well ventilated.
4. Avoid using cleaners that contain ammonia or vinegar - these can cause corrosion on the edges of the mirror. Never use abrasive cleaners.
5. If your mirror sits directly on a vanity, avoid having excess water puddle along the bottom of the mirror.
6. Avoid spraying cleaners directly onto the mirror.

CARE CLEANING AND MAINTENANCE

- 1.Dust regularly with a soft , dry cloth.
- 2.Avoid the use of all chemicals household cleaners, abrasives, or cleaners that contain lemon, vinegar, or other acids that may damage the finish.
- 3.Excessive exposure to sunlight and extreme changes in temperature and moisture can damage wood furniture.
4. The sink is fragile, please pay attention to maintaining its appearance.
- 5.Do not place hot appliances, such as curling irons and hot hair dryers directly on the countertop. Wipe spills immediately.

Step 4

Place the basin in position against the wall, locating the fixing bolts through the holes in the rear of the basin. Push a plastic washer, followed by a metal washer, onto each fixing bolt.

Step 5

Screw a metal nut onto each fixing bolt to secure the basin. Caution: Do not overtighten, as this may damage the basin.

Step 6

The installation height and left and right positions of the drawer cabinet can be positioned as needed.

Step 7
