

Talbot Tabletop Clock 645824

This dazzling crystal table clock serves as the perfect finishing touch for any space. Exuding the sheer grace and beauty one might expect of pure crystal and the practicality of a standard timepiece, it's as startlingly beautiful as it is sensible. From its gently curved crown to its wide base, no detail has been spared in creating a distinctive and highly elegant clock sure to stand the test of time.

Classy Crystal: The star of the show is resplendent Starphire glass, nearly as crisp and flawless as any diamond glinting in the light. A slight curve at the top of the alarm clock paves the way for mirrored, beveled edges. The entire piece rests on a sturdy Starphire crystal base, with its front and back edges gently curved to precision. At the center rests a pronounced white dial, whose black Roman numerals and black hands provide a striking contrast. The polished silver-tone bezel and silver alarm hand bring it all together, while a flat glass crystal shields the front.

Quartz Movement: The clock has quartz, battery-operated movement and requires one AA sized battery.

Howard Miller: Founded in 1926 and still family-owned in its third generation, Howard Miller is the world's leading clock company and a respected brand name in fine specialty furnishings such as curio cabinets, wine & bar furnishings, custom storage cabinets, and SmartMoves® adjustable height desks.
