

Installation & Usage Guidelines

- 1. Ensure all components are fully tightened during installation, and check joint stability after assembly.
- 2. Even Distribution: Hang items evenly to prevent tipping.
- 3. Place heavy items on the lowest tier. Avoid hanging overweight objects
- (e.g., water-soaked clothes, gym equipment). Overloading may cause deformation.
- 4.No Climbing: Keep children from climbing or swinging on the rack.
- 5.Periodically inspect the tightness of panel connectors, as prolonged use or movement may cause loosening.
- 6. Avoid Moisture & Heat: Keep away from radiators, flames, and humid areas (e.g., bathrooms).
- 7.No Direct Sunlight: Prolonged UV exposure may cause cracking or fading.
- 8. Cleaning: Wipe with a soft cloth and neutral cleaner. Avoid acids or abrasive tools.
- 9. Storage: Disassemble and store in a dry, ventilated area without stacking.
