⑱		Screw (Ø4*14mm)	2
⑲		Screw (Ø4*35mm)	2

Assembly Preparation

Before
Beginning
Assembly:

- Read instructions, cover to cover-
- Have 2 adults on hand for assembly-
- Do not assemble on flooring or carpet-
- Assemble on a clean non-marring surface (packing foam)-
- Save all packaging until finished-

Assembly Steps

Overview

This table has multiple parts and may require up to 60 minutes to assemble. To give you an overview of the table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Attach the down bottom panel(F) to the leg (H,I) with bolt(①) and flat washer(③) using I-type hexagon wrench(⑮).

Step 2

Attach the up bottom panel(E) to the leg (H,I) with bolt(②) and flat washer(③) using I-type hexagon wrench(⑮).

Step 3

Open the slide rail (6) and divide it into (6-1) and (6-2).

Step 4

Attach the slide rail (6-1) to the left side panel(B) with screw(7) using l-type hexagon wrench(15).Repeat the previous steps to the right side panel(D) .

Step 5

Attach the slide rail (6-1) to the middle side panel (C) with screw (7) using I-type hexagon wrench (15).

Step 6

Fix the dowel (14) to the up bottom panel (E).
Attach the up bottom panel (E) to the left side panel (B), the middle side panel (C) and the right side panel (D) with bolt (2) and flat washer (3) using I-type hexagon wrench (15).

Step 7

Insert the back panel(G) into the groove of the left side panel(B), the middle side panel(C) and the right side panel(D).

Step 8

Attach the long side of anti-tipping iron sheet (16) into the top panel(A) with screw(18) using I-type hexagon wrench(15).

Step 9

Attach the top panel(A) to the left side panel(B),the middle side panel(C) and the right side panel(D)with bolt(①) and flat washer(③) using l-type hexagon wrench(⑮).

Step 10

Attach the slide rail (⑥-②) to the drawer left side panel(K) with screw(⑧) using l-type hexagon wrench(⑮).Repeat the previous steps to the drawer right side panel(L).

Step 11

Attach the drawer back panel (M) to the drawer left side panel (K) and the drawer right side panel (L) with screw (9) using L-type hexagon wrench (15). Insert the drawer bottom panel (N) into the groove of the drawer left side panel (K), the drawer right side panel (L) and the drawer back panel (M).

Step 12

Attach handle (4) to the drawer panel (J) with bolt (5) using L-type hexagon wrench (15). Attach cam bolt (12) to the drawer panel (J) using L-type hexagon wrench (15).

Step 13

⑬x16
└─ ⑮x1

x4

Attach the drawer panel (J) to the drawer left side panel(K) and the drawer right side panel(L) with cam nut (⑬) using l-type hexagon wrench(⑮).

Step 14

⑩x8
⑪x8
└─ ⑮x1

Attach plastic button(⑩) into the back panel(G) with screw(⑪) using l-type hexagon wrench(⑮).

Step 15

- 16 x2
- 17 x2
- 19 x2
- 15 x1

Screw the nut (17) into the wall. Install the short side of anti-tipping iron sheet (16) on the wall with screw(19) using l-type hexagon wrench(15).

Step 16

Please put the drawer in the table.

Step 17

Adjust Pre-installed Levelers
height to achieve balance.

Your console table is ready for use.

Questions & Answers about Proposition 65

• What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm.

These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water. Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

• What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

• What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals. By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

• Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
