Returning Policy
If the item needs to be returned, please contact our Customer Service Team. We will provide a prepaid returning label. NOTE: We are not responsible for any costs incurred if the buyer returns the item themselves.

Thank you very much for purchasing this product! Please read the instruction manual carefully before using the product. It will guide you to use the product correctly and remind you of the things you need to pay attention to.

Safety User Manual

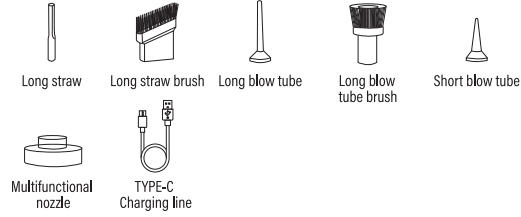

- Before using this product, please carefully read all the contents of this manual.
- Please keep this manual properly. If you transfer the product to a third party for use, please attach this manual along with the machine.
- Any operation that does not comply with the instructions in the manual may result in serious personal injury, property damage, or damage to the product itself.
- Our company shall not be held legally responsible for any losses caused by failure to follow the instructions provided in this product manual.
- It is very important for your personal safety to read these instructions carefully to avoid accidents and possible damage to the product.
- When the product is in operation, please be particularly cautious and double the caution to avoid danger.
- Properly store this product out of reach of children and individuals who are unable to assess environmental hazards.
- Do not store this product at high places to avoid the risk of accidental falling.

Product Mix

• This manual is a general manual, and specific accessories are subject to the purchased configuration.

Parts List

• This manual is a general manual, and specific accessories are subject to the purchased configuration.

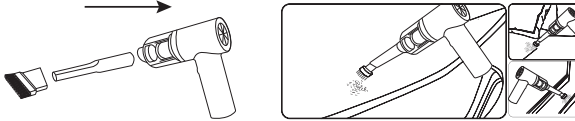

Installation instructions

Installation of host dust cup assembly:

1. Install in turn according to the illustration. The HEPA filter cover is placed in the dust collecting cup.
2. Turn the dust cup assembly counterclockwise as shown. There is a "click" to indicate successful installation.

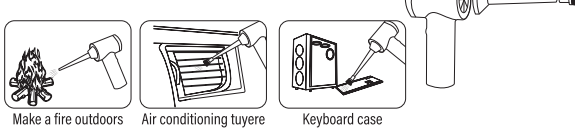

Vacuum collection

1. The two-in-one flat suction host dust suction port can be used;

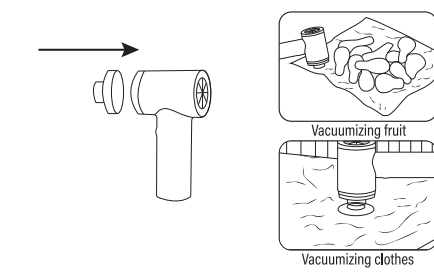

Dust blowing

1. In the direction of the arrow shown in the figure, install the blowing nozzle to the main engine.

Vacuum pumping

1. In the direction of the arrow shown in the figure, install the multi-function port on the host.

Instructions for use

1. Connect the charger to fully charge the battery. Charging indicator:
【Red】 For charging indicator light
【Green】 To fill the indicator light

2. Floor brush: It is suitable for dust cleaning of floor, trunk, mattress, sofa and various large-area flat surfaces.

3. Exhaust: Suitable for rapid exhaust and vacuum compression. Warning: The air nozzle can only pump air, not dust.

Work before use:
Use the manufacturer's own TYPE-C charging cable.

Charging instructions:

1. Charge the other end of the USB interface of the charging line.
2. When charging, please do not turn on the charging line. The red indicator light is in normal charging state. When fully charged, the green light is always on.

Attention

Please fully charge the battery when using a new battery or storing the battery used for the first time. Please charge for more than 3 hours before the first use. Please fully charge before storage. When the battery goes into a power shortage state, the machine cannot be charged and affects normal use.

Matters needing attention

Proper use:

1. Regular cleaning and maintenance:
① Clean the dust bag and dust screen of the vacuum cleaner regularly;
② Regularly check the wear of brushes and replace new brushes in time;
③ After the vacuum cleaner is used, it should be stored in a dry place to avoid excessive;

2. Control of storage:

- ① After use, the vacuum cleaner and accessories should be cleaned with a damp cloth and then dried naturally in the air;
- ② The dirt in the dust bag should be removed in time. If it is not used for the time being, wash the dust bag with warm water and then dry it naturally in the sun.

Following these precautions can effectively protect the motor of dry vacuum cleaner, prolong its service life and ensure its use safety.
