

INSTALLATION INSTRUCTIONS FOR MAHJONG TABLE

First, check if all items in the package are complete.
There are a total of 4 large components.

Attach the base support plate.
(Make sure this aligns with the charging port below.)
Ensure alignment with the screw holes.
Then, secure each hole with screws.

Install the tile shuffler assembly onto the base.

Make sure to check in advance that the charging port and switch position of the tile shuffler align in the same direction as the reserved charging port on the base.

Place the frame onto the assembly.
Align it with the screw holes below.

Then, drive one screw into each corner.
Add a washer to each screw.

Place the frame cover panel in position, ensuring it snaps securely into place.

INSTALLATION COMPLETED

The installation method is the same for different models.
