1	80031	Upper Shelf
2	80032	Upper / Lower Back
3	80033	Center Back
2	80086	Outer Center Back

## Hardware Supplied

**1** Attach the top panel, upper shelf, lower shelf and bottom panel to left side panel using the connecting bolts and hex wrench. Be sure the slots for the dividers are facing up. Also be sure the slots for the back panel are aligned.

Attach the bumper to the bottom panel using the 1" screw.

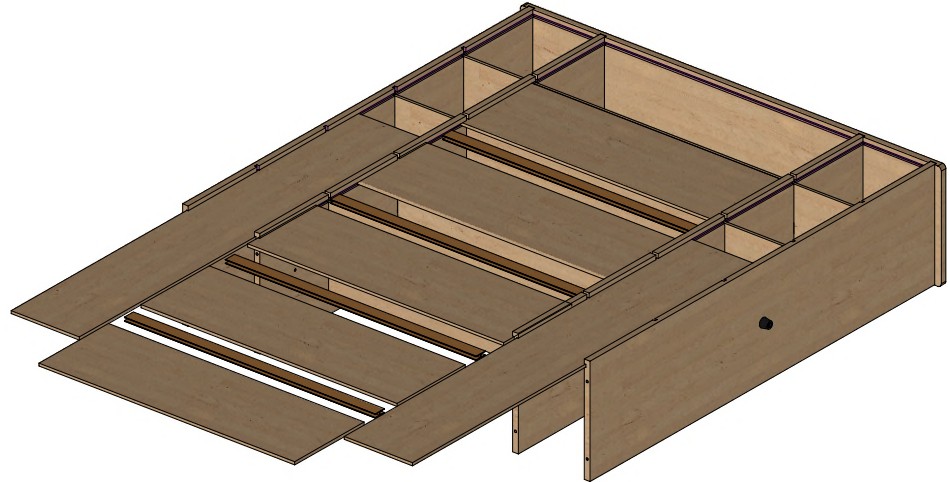

**2** (refer to sketch at left)

Slide the dividers into the slots in the top, shelves and bottom panels. Be sure the panels are completely down into the slots.

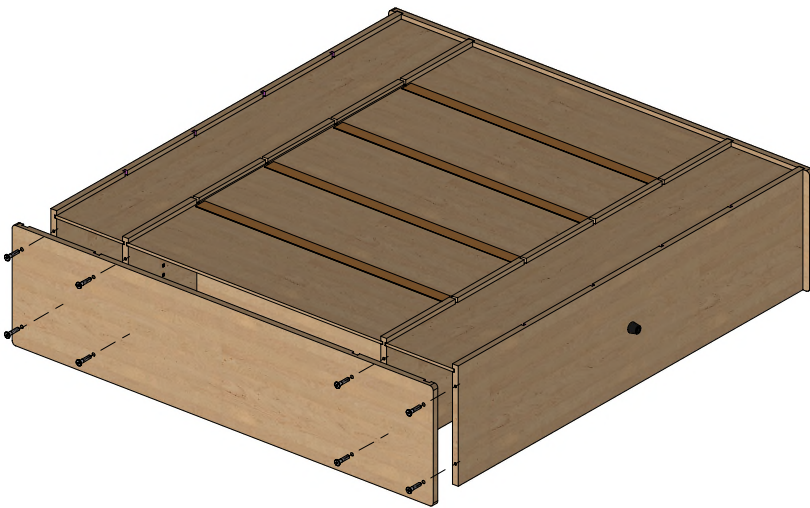

**3** (refer to sketch below)

Slide one outer (sider) back panel into the slots in the shelves. Be sure the panel is completely in the slot in the side panel. After one panel is in place, slide a plastic divider into the edge of the assembled back panel. Slide a center back panel section (narrow) into the slots in the shelves followed by a plastic divider. Repeat this process until all back panels are in place. Be sure the wide back panels are at each end.

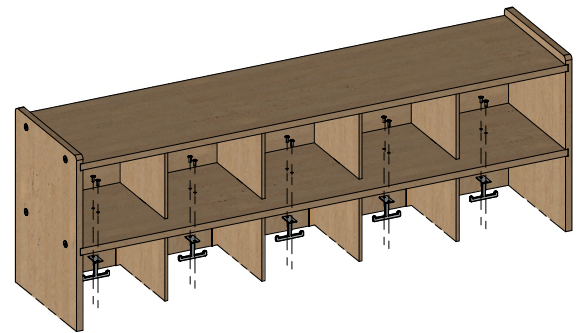

**4** (refer to sketch at right)

Attach the remaining side panel to the top, shelves and bottom panel using the connecting bolts and hex key.

**5** (refer to sketch below)

Stand the unit upright. Attach the ceiling hooks to the bottom of the upper shelf using the posts and flat head screws.

**6**

Furniture tipping restraint hardware is included in with the hardware package for this unit. Follow the installation instructions printed on the restraint hardware bag.

**WARNING!!**

Serious or fatal crushing injuries can occur from furniture tip-over. To help prevent tip-over: Place heaviest items on bottom of cabinet.

Never allow children to climb or hang on doors or shelves.

Use of tip-over restraints may only reduce, but not eliminate, the risk of tip-over.

**CARE INSTRUCTIONS:**

Wipe the cabinet clean with a damp cloth and mild soap as needed. Dry thoroughly.

**IMPORTANT!!**

Check all connecting bolts periodically to make sure they are tight!
