

LP420V2

Compact Ultra-Bright LED Flashlight

3 AAA Batteries

Features

- Constructed with aircraft-grade aluminum
- Enhanced rubber grip
- High quality wrist lanyard
- Tactical on/off button
- IPX4 waterproof rating
- Batteries included (3 AAA)

ANSI/PLATO FL1 STANDARD			
MODES	 LUMENS	 RUN TIME	 BEAM DISTANCE
High	300 lm	13h	150m
Low	90 lm	5h	50m

Operation Instructions

**On/Off:** Press and release the button on the tail cap to turn the light on and off.

**Cycle Modes:** First turn the light on by pressing down the button on the tail cap completely and releasing. Half-press to cycle through the modes (High/Low/Strobe). Turning the flashlight on and off quickly and repeatedly will also cycle the light through the three modes.

The light will automatically reset to High mode when off for longer than 2 seconds.

Battery Replacement

The LP420V2 uses 3 AAA batteries. To replace the batteries, turn the tail cap counterclockwise to remove it. Tip the light downward to slide out the battery case which contains the batteries. Remove the batteries from the case and insert new batteries according to the (+/-) symbols found on the case. For best results, we recommend using brand new alkaline batteries that are the same voltage and brand. Re-insert battery case into the flashlight (+) side first with the arrow on the battery case pointing down. Re-attach the tail cap by pressing down lightly and turning it clockwise until tight.

If you know it will be a while between uses, we suggest removing the batteries from the flashlight and storing it in a dry, protected place.

Product Warranty

The LP420V2 has a Limited Lifetime Warranty Against Manufacturer's Defects from time of purchase. For warranty claims please contact us by calling 801-553-8886 or sending an email to [info@simpleproducts.com](mailto:info@simpleproducts.com)
