Garden Stool – General Instruction Manual

Product Overview

This garden stool is constructed from durable, weather-resistant magnesium oxide stone composite for long-lasting outdoor use. It provides a stable, comfortable seat for gardening, patio relaxation, and other outdoor activities. Designed as a whimsical mushroom shape with green cap decorated with white spots, it also serves as eye-catching garden landscape decor.

Specifications

- Maximum Weight Capacity: 100 kg (220 lbs)

Applications

Ideal for gardens, lawns, patios, balconies, and outdoor workspaces. It works perfectly as a seating stool, plant stand or fairy garden decorative statue.

Usage Instructions

Place the stool on a flat, level, and stable surface before sitting to prevent tipping. Do not stand, jump, or lean excessively on the stool. Do not overload beyond the 100 kg weight limit.

Care & Maintenance

Clean regularly with a soft cloth and mild soap; rinse and dry thoroughly. Avoid prolonged exposure to extreme rain, direct strong sunlight, to prevent fading, or material degradation. Store in a dry and ventilated place for long-term unused to extend the service life.
