

# INSTRUCTION MANUAL

Thank you for your purchase, Please consult the installation instructions.

**Before installation, please check that all product accessories are complete and intact.**

- Attach the lamp arm to the central column and secure it tightly with a nut.
- Use the mounting bracket to confirm the hole spacing, drill holes, and insert wall plugs into the holes.
- Fix the mounting bracket to the wall plugs using screws.
- Connect the power wires. The wiring caps indicate the positive and negative terminals.
- Secure the ceiling base to the mounting bracket using the bracket screws.
- Install the light bulb and glass cover.
- Attach the lampshade, turn on the light, and complete the installation.
