## Textured Walls 1

D2813S56255-4770

Textured Walls 1 recalls the mid-1960s works of Robert Ryman, a celebrated American painter best known for his white-on-white minimalist compositions. In this highly textural painting on canvas, layered paint forms a horizontal banding across the upper portion of the canvas, while a more delicate approach is taken across the remainder of the piece. A striking display of technique and material, Textured Walls 1 is a remarkable work of art in a subtle color palette of light grey, linen, and oyster. Part of the carefully curated ART by TA collection. Pairs beautifully with Textured Walls 2.
