**Product Description:** Inspired by the cozy oasis of the California coastline, the Surfrider Bistro Table is a marvel of craftsmanship combining natural materials of cane, rope and Pecan Veneers with a solid wood edge top and hand-tied jute rope on the table base. This 35-inch-high counter-height table includes the table base and top and features the light natural Driftwood finish with distressing including sandblasting and bleaching.

**Collection Features:** Melding the salty, yet cozy oasis of the California coastline with a modern surf culture, Surfrider is defined by the use of natural materials including rattan, jute rope, stone, gypsum, bamboo and driftwood motifs. Designed to create relaxing spaces to escape from the pressures of modern life, it is featured in a light, natural Driftwood finish. Luxurious materials, shapes and textures combine to create a relaxed, yet sophisticated style that epitomize the lifestyle of a casual, beach-town community.

**Status:** Active

**Finish:** Driftwood: a light, natural finish. Distressing includes sandblasting, bleaching, drawknife and wormholes.

**Features:** Includes table base and top

**Material:** Cane, Resin, Rope, Pecan Veneers with Solid-Wood Edge Top

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood

and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

**Important Use Information:** We recommend using coasters, placements and trivets when using hot containers with this item. It is also recommended to provide quick cleanup for any spills to minimize exposure to moisture. Doing so will prolong the life and look of the item and provide many years of the quality you expect.
