

4 Foot Christmas Wreath Information and helpful tips.

Commercial Grade Frame
and PVC Noble Fir

Christmas Wreaths are measured with the tips fully extended from the outermost point on one side directly through the center to the outermost point on the opposite side.

To bring out the full shape and beauty of wreath we encourage you to fluff the branches. We have included a small image below to show the difference it makes and how beautiful your wreath will look fluffed.

The importance of fluffing your wreath

(3 foot wreath shown)
