

FROSTING TRANSLUCENCY

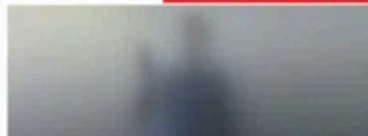

DISTANCE: 5" INCHES

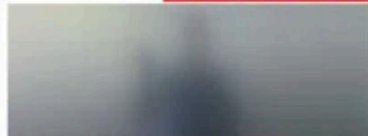

DISTANCE: 10" INCHES

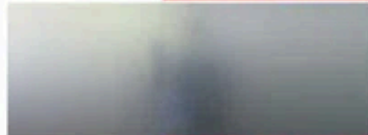

DISTANCE: 15" INCHES

DISTANCE: 20" INCHES

DISTANCE: 25" INCHES

DISTANCE: 30" INCHES

PLEASE NOTE:

that full-private frostings are not 100% opaque.

This means that the closer objects are to the glass panel, the stronger they shine through.

For this reason we recommend for example for bathrooms that should offer

maximum privacy a full frosting on the front and back side of the glass panel, however, then no design can be applied.
